Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LCSD-12V2812-60D-IP20
- Minimum Order Quantity: 50 meters
- Price: \$2.28/meters
- Packaging Details: bag
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 100000meters/month

Product Specification

- Input Voltage: DC 12
- Type: RGB Addressable Strip Light
- Ip Rating: Ip20
- Led Specification: SMD 5050+IC
- Life: 30,000h
- Lamp Body Material: PVC
- Switch Mode: Remote Control
- Voltage: 12V
- Highlight: RGB Addressable LED Strip Lights,
12V Addressable LED Strip Lights,
Addressable RGB LED Strip

Product Description

12V RGB addressable LED light strip for modern home lighting decoration

Product Description:

There are three different IP levels for addressable RGB iridescent LED light strips, IP68, IP65, and IP20, to meet your needs. The IP68 and IP65 ratings mean that the product is waterproof and can be used outdoors, while the IP20 rating is ideal for indoor use.

The LED light strip adopts SMD5050+2812ic, which is famous for its dreamy color effects and long lifespan. Each LED can display different colors to achieve a dreamy light color, which is very suitable for creating a warm and enticing atmosphere.

The LED light strip body is made of high-quality PVC material, which is both durable and lightweight. This material ensures that the LED light strip is easy to install and can be used in various settings.

LED light strips come in various sizes, with 18, 30, 60, 120, or 144 LED bulbs per meter. This flexibility allows you to choose the right amount of light for your space and ensures that you can create the perfect atmosphere.

One of the main features of LED light strips is dimmable LED light strip illumination. This allows you to adjust the brightness of the light to meet your needs and create the perfect mood for any occasion. Whether you are looking for a bright and vibrant light or a soft and subtle glow, LED light strips can help you achieve the effect you want.

The LED light strip also has adhesive LED string lights, which makes installation fast and easy. These lights can easily attach to any surface and can be cut to fit the length of your space. This means that you can create customized lighting solutions based on your needs.

In short, LED light strips are a versatile and flexible lighting solution that perfectly creates a range of different emotions and atmospheres. With its energy-saving LED bulbs, durable PVC structure, and dimmable LED light strips, this product is sure to meet all your lighting needs. So, why wait? Order your LED light strips today and start creating the perfect atmosphere for your home or business!

Features:

Product Name: WS2812 addressable RGB Magic light strip

Led Type: SMD 5050+2812ic

Emitting Colour: RGB+IC

Item Type: Light Strips

Ip Rating: IP68, IP65, IP20

Led Specification: SMD 5050+IC

Features: Dreamy colors

RGB LED Ribbon Lights

Dimmable LED Strip Lighting

Easy to install

Flexible and versatile

Can be cut to size

Water-resistant (IP65)

Safe and energy-efficient

Technical Parameters:

Leds	144pcs
Led Type	SMD 5050+IC
Type	RGB Add Strip Light
Ip Rating	IP65, Ip20
Lamp Body Material	PVC
Life	30,000h
Emitting Colour	RGB
Length	5M/roll
Led Specification	SMD 5050
Item Name	LED Add Strip Light

Applications:

One popular use for LED Strip Lights is in home decor. These lights can be used to accentuate certain parts of a room, such as under cabinets or along baseboards. They can also be used to create a relaxing ambiance in bedrooms or living rooms, as they can be dimmed

to set the perfect mood. With 60 LEDs/m and options for 45pcs or 60pcs per strip, these lights are sure to provide ample brightness for any space.

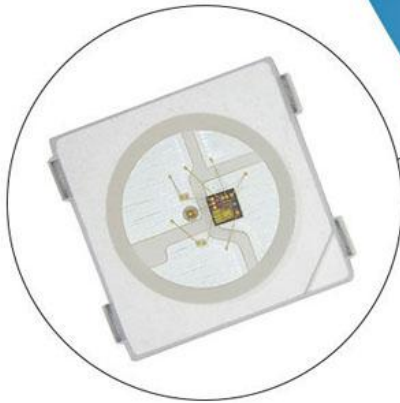

LED Strip Lights are also a great choice for commercial settings. They can be used to highlight displays in retail stores or restaurants, or to create a unique atmosphere in bars and nightclubs. With their ability to be dimmed, these lights can be adjusted to suit any occasion, from a bright and vibrant party to a more subdued and intimate gathering.

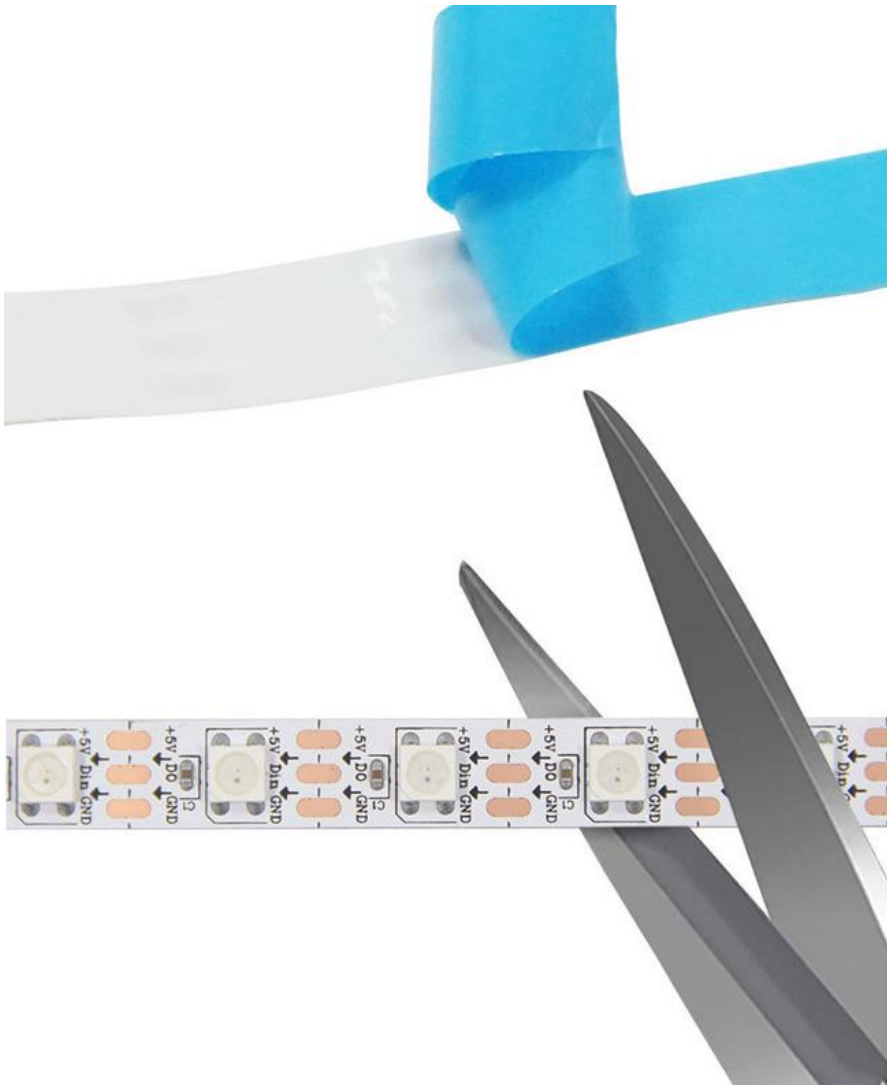

For those who love DIY projects, LED Strip Lights can be used to create custom lighting solutions. From creating a personalized home theater to building a unique lighting fixture, the possibilities are endless. With RGB LED Ribbon Lights, users can even create a dynamic and colorful lighting display that can be controlled with a remote.

Finally, LED Strip Lights are a practical choice for outdoor events and activities. With their IP65 rating, they are water-resistant and can withstand rain and other outdoor elements. They can be used to light up a backyard party or to create a festive atmosphere for a holiday celebration. With their versatility and flexibility, LED Strip Lights are a great investment for anyone looking to enhance their lighting options.
