Product Description

Led Intelligent Bluetooth Rgb Light Strip Suitable For Tv Background Indoor Decoration Light Strip

Product Description:

The smart Bluetooth LED light has a long lifespan of up to 30000 hours, making it a reliable and cost-effective lighting solution for any home or business. The configuration of 18 LEDs per meter, 5050 ensures bright and uniform light output. Choose various flicker options from RGB emission to meet your preferences and needs. By using mobile applications, you can remotely control the light color and effects you want, or achieve the atmosphere you want through music mode.

Measuring a width of 10 millimeters, these LED lights are slim and cautious, making them perfect for installation in narrow spaces or areas with limited space. Adhesive backing allows for easy and convenient installation without the need for drilling or complex wiring. Simply peel off the back and stick the LED light onto any clean and smooth surface.

These adhesive LED string lights are highly suitable for various applications, including TV backgrounds, living rooms, bedrooms, corridors, and more. Create a comfortable and warm atmosphere in the living room, and a bright and vibrant atmosphere in the kitchen or dining room. Their color changing function allows you to easily switch the appearance and feel of any room with just a touch of a button. In short, our adhesive LED string light is a multifunctional and reliable lighting solution that is sure to leave a deep impression on people. These LED lights have a long lifespan, slim design, and easy installation, making them perfect for anyone who wants to add a touch of light and color to their home or business. Choose different color lighting effects to meet your preferences and needs. Order now and see the difference these dimmable LED light strips can make in your space!
