Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LC-MZ-L3201
- Minimum Order Quantity: 10pcs
- Price: \$3.4/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

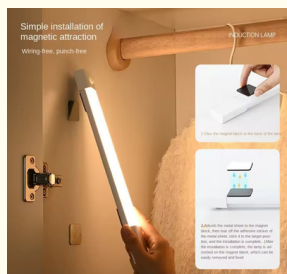

Product Specification

- Type: Motion Sensor Light
- Brightness: Adjustable
- Sensor Type: Motion Sensor
- Sensor Angle: 120 Degrees
- Material: ABS
- Colour: Black, White
- Light Source: LED
- Installation Method: Magnetic Installation
- Highlight: **Abs Magnetic Motion Sensor Light, 120 Degrees Angle Motion Sensor Light, Adjustable Magnetic Motion Sensor Light**

Product Description

120 Degrees Wide Angle Abs Magnetic Motion Sensor Light With Adjustable Brightness

Product Description:

Powered by a rechargeable Lithium-ion battery, this LED cabinet light offers long-lasting performance with minimal maintenance. With its magnetic installation method, this LED cabinet light is easy to install and can be placed in a variety of locations without the need for drilling or wiring.

Featuring an energy-efficient LED light source, this LED cabinet light provides bright and reliable illumination that is perfect for use in dark areas or low-light environments. With a sleek and stylish design, this LED cabinet light is sure to complement any decor and can be easily integrated into any space.

Whether you need a reliable light source for your wardrobe, display case, cabinet, desk, stairs, or bedside table, this LED cabinet light is the perfect choice. With its automatic motion sensor technology, this LED cabinet light is designed to provide light when you need it the most, making it ideal for use in a variety of settings.

Please note that this LED cabinet light is not waterproof and should be used in dry environments only. With its long-lasting performance, energy-efficient LED light source, and easy installation method, this LED cabinet light is the perfect addition to any home or office.

Features:

Product Name: LED motion sensor light

Type: Motion Sensor Light

Size: 20cm-50cm

Application scenario: Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside

Color Temperature: 3000K/4500K/6000K

Installation Method: Magnetic Installation

Features: Easy to install, three colors change light, adjust the brightness

Human body sensing

Three color dimming

Large capacity battery

Technical Parameters:

Brightness	Adjustable
Color Temperature	3000K/4500K/6000K
Application Scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Waterproof	No
Installation Method	Magnetic Installation
Type	Motion Sensor Light
Size	20cm-50cm
Power Source	Rechargeable Lithium-ion Battery (Type-C charging)
Sensor Type	Motion Sensor
Sensor Angle	120 Degrees

Magnetic attraction without wiring

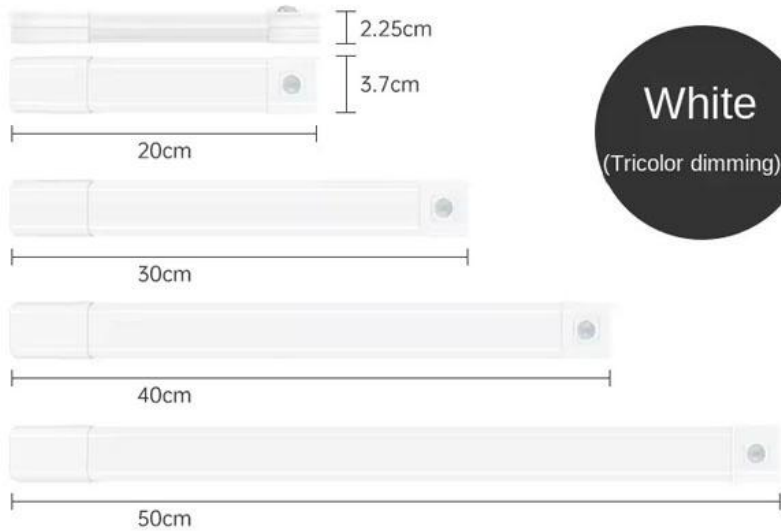

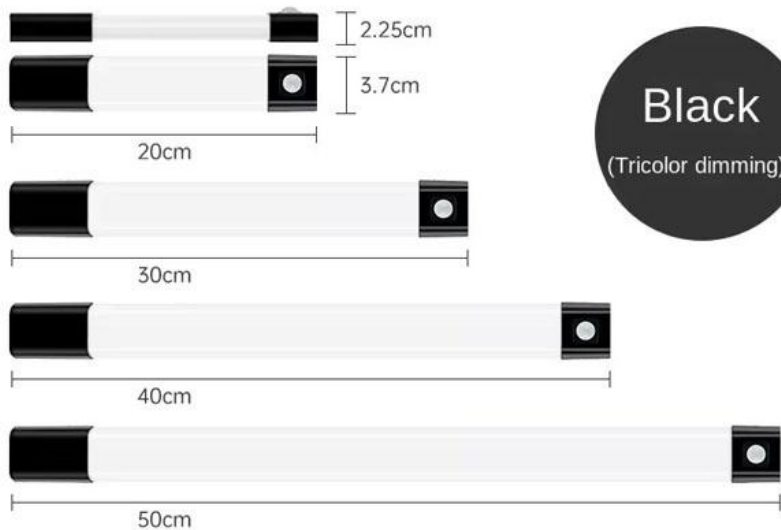

Applications:

The LED cabinet light is highly versatile and can be used in different scenarios. With a sensor range of up to 10 feet and a sensor angle of 120 degrees, it can be used as a wardrobe light, closet light, or as an under-cabinet light. The adjustable brightness enables users to customize the lighting to their preference and needs. The light is available in multi-specification size, making it suitable for use in various sizes of cabinets or closets.

The 3000K/4500K/6000K color temperature of the LED light provides a warm, natural, and bright light, making it ideal for use in different occasions. The motion sensor feature of the light enables it to automatically turn on when motion is detected and turn off after 20 seconds of inactivity, making it an energy-saving option for users.

The LED motion sensor light is perfect for use in different occasions and scenarios, including in homes, offices, or commercial spaces. It

is an excellent option for those who want an easy-to-install and energy-efficient lighting solution. The magnetic attraction without wiring feature makes it easy to install without the need for drilling or complicated wiring.

Application

EASY INSTALLATION

Way 1

The light build-in strong magnet easy adsorbed on ironwork surface

Way 2

Use the metal sheet with adhesive sided to stick anywhere

Step 1

The right Angle iron plate is adsorbed in the strong magnetic position of the lamp body

Step 2

Remove the 3M glue sticker and stick it to the corner of the cabinet
