

Rechargeable LED Magnetic Sensor Light Intelligent Cabinet Light 5v

Our Product Introduction

for more products please visit us on ledslightstrip.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LC-MZ-L1101
- Minimum Order Quantity: 10pcs
- Price: \$5/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

Product Specification

- Power Source: Rechargeable Lithium-ion Battery
- Color Temperature: 3000K/6000K
- Installation Method: Magnetic Installation
- Sensor Angle: 120 Degrees
- Type: Motion Sensor Light
- Material: ABS
- Brightness: Adjustable
- Waterproof: No
- Highlight: Rechargeable LED Magnetic Sensor Light,
5v LED Magnetic Sensor Light,
LED Cabinet Light 5v

Product Description

5v Rechargeable Magnetic Sensor Light Intelligent Cabinet Light

Product Description:

The sensor range of the LED motion sensor light is up to 10 feet, making it ideal for use in areas where motion detection is required such as hallways, stairways, and garages. The motion sensor feature ensures that the light is only activated when motion is detected, which helps to save energy and prolong the battery life.

The LED motion sensor light is powered by a rechargeable Lithium-ion battery that provides long-lasting power. The battery can be easily recharged using the provided USB cable, and it has a long battery life, making it ideal for use in areas where frequent charging is not possible.

The LED motion sensor light is available in multi-specification sizes, making it easy to find the perfect fit for any space. It is also equipped with a magnetic installation feature that allows for easy installation without the need for wiring. The magnetic attraction feature ensures that the light stays in place without the need for screws or adhesives.

Although the LED motion sensor light is not waterproof, it is still a great choice for indoor and outdoor use. It is perfect for use in areas where moisture is not a concern, such as garages, hallways, and stairways.

In conclusion, the LED motion sensor light is an excellent product that offers convenient lighting solutions for both indoor and outdoor areas. Its magnetic installation, magnetic attraction without wiring, and two color temperature options, 3000K and 6000K, make it an ideal choice for anyone looking for an easy to install and multifunctional lighting solution.

Features:

Product Name: LED motion sensor light
Power Source: Rechargeable Lithium-ion Battery
Size: Multi-specification
Material: ABS
Light Source: LED
Sensor Angle: 120 Degrees
Charging Type: Type-C
Input: USB 5V
Color Temperature:3000K/6000K

Technical Parameters:

Material	ABS
Type	Motion Sensor Light
Size	18cm(1200mAh)/30cm(2000mAh)
Sensor Type	Motion Sensor
Sensor Range	Up To 10 Feet
Sensor Angle	120 Degrees
Color Temperature	3000K/6000K
Waterproof	No
Light Source	LED

Other features: Large capacity battery, Human body sensing, Magnetic attraction without wiring

Applications:

The Motion Sensor Cabinet Light features a number of advanced features that make it stand out from the crowd. These include a human body sensing function, which means that it will only turn on when it detects movement. This makes it perfect for use in areas where there is not a constant flow of traffic, such as closets, cabinets, and garages. The product is also designed with magnetic attraction, which means that it can be easily attached to metal surfaces. This feature makes it ideal for use in a variety of scenarios, including camping trips, RVs, and boats.

Thanks to its advanced features and high-quality construction, the Motion Sensor Cabinet Light is an extremely versatile product. It is perfect for use in a wide range of settings, including residential, commercial, and industrial applications. The product is also CE certified, which means that it meets the highest standards of quality and safety. The minimum order quantity for this product is 10pcs, and it is
