Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LC-MZ-L1005
- Minimum Order Quantity: 10pcs
- Price: \$3.8/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

Product Specification

- Sensor Angle: 120 Degrees
- Installation Method: Magnetic Installation
- Light Source: LED
- Type: Motion Sensor Light
- Waterproof: No
- Brightness: Adjustable
- Sensor Type: Motion Sensor
- Sensor Range: Up To 10 Feet
- Highlight: **Magnetic Led Sensor Light, Adjustable Brightness Led Sensor Light, 120 Sensor Angle Magnetic Sensor Light**

Product Description

Adjustable Brightness Magnetic Led Sensor Light With 120° Sensor Angle

Product Description:

One of the standout features of this LED motion sensor light is its three color dimming options. The color temperature of the light can be adjusted to either 3000K, 4500K, or 6000K depending on your preference. This feature allows you to choose the perfect color temperature that suits your mood and environment. Whether you want a warm, cozy atmosphere or a bright, vibrant one, this LED motion sensor light has got you covered.

In addition to its color temperature control, this LED motion sensor light also has brightness control. You can easily adjust the brightness of the light to your desired level by pressing and holding the switch. This feature is particularly useful when you want to set a certain mood or when you need brighter lighting for specific tasks.

Another great feature of this LED motion sensor light is its rechargeable lithium-ion battery. You no longer have to worry about constantly replacing batteries or finding a power source for your light. This motion sensor light can be easily charged using a USB cable, giving you the flexibility and convenience you need.

The sensor angle of this LED motion sensor light is 120 degrees, ensuring that it can detect motion from a wide angle. This feature makes it ideal for use in various application scenarios where you need to detect motion easily. Whether you are using it in your wardrobe or on your stairs, you can be sure that this motion sensor light will work efficiently.

Overall, this ultra-thin intelligent LED motion sensor light is a convenient and practical solution to all your lighting needs. With its three color dimming, brightness control, rechargeable lithium-ion battery, and 120-degree sensor angle, you can be sure that this light will provide you with the perfect lighting experience.

Features:

Product Name: LED motion sensor light

Sensor Range: Up To 10 Feet

Dimensions: Not Specified

Material: Aluminum

Sensor Angle: 120 Degrees

Sensor Type: Motion Sensor

Magnetic installation

Human body sensing

Three color dimming

Technical Parameters:

Light Source	LED
Brightness	Adjustable
Sensor Type	Motion Sensor
Installation Method	Magnetic Installation
Sensor Angle	120 Degrees
Dimensions	Not Specified
Size	Multi-specification
Power Source	Rechargeable Lithium-ion Battery
Application scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Waterproof	No

Features: Automatic light, USB 5V, Magnetic attraction without wiring

Applications:

One of the most common application occasions for the Motion Sensor Cabinet Light is in closets, cabinets, and other small spaces. The light is perfect for illuminating these areas, making it easy to find items that might otherwise be difficult to locate. The Three color dimming feature allows you to adjust the brightness and color temperature of the light to suit your needs.

The Motion Sensor Cabinet Light is also ideal for use in hallways and staircases. The Human body sensing feature ensures that the light turns on automatically when movement is detected, making it easy to navigate these areas safely. This makes it an excellent addition to

any home, especially for families with children or elderly individuals who may have trouble seeing in low-light areas.

Another great application occasion for the Motion Sensor Cabinet Light is in workshops or garages. This product is designed to be durable and long-lasting, making it ideal for use in areas where it may be subjected to harsh conditions. The USB 5V power source provides convenient charging options for the rechargeable lithium-ion battery.

Overall, the Motion Sensor Cabinet Light is a reliable and versatile product that can be used in a wide variety of scenarios. Whether you're looking for a way to illuminate small spaces or need a reliable light for navigating dark hallways and staircases, this product is an excellent choice. With its CE certification and a minimum order quantity of just 10pcs, it's an excellent investment for homeowners, businesses, and organizations alike.
