Basic Information

- Place of Origin: Guangdong, China
- Brand Name: LINKOP
- Certification: CE
- Model Number: LC-MZ-1602
- Minimum Order Quantity: 10pcs
- Price: \$4.28/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

Product Specification

- Brightness: Adjustable
- Waterproof: No
- Type: Motion Sensor Light
- Sensor Range: Up To 10 Feet
- Dimensions: Not Specified
- Size: Multi-specification
- Sensor Angle: 120 Degrees
- Sensor Type: Motion Sensor
- Highlight: **Led Motion Sensor Light USB 5V, Led Motion Sensor Light 6000K, 3000K Led Motion Sensor Light**

Product Description

Adjustable Brightness Led Motion Sensor Light Multi-Specification Selection

Product Description:

The LED cabinet light is powered by a Rechargeable Lithium-ion Battery, ensuring that it lasts for a long time and is eco-friendly. The battery is rechargeable via USB 5V, making it easy to charge and use in any location. With our LED cabinet light, you will never have to worry about replacing batteries again!

Our LED cabinet light is not waterproof, so it should not be used in areas where it will be exposed to moisture or water. However, it is perfect for indoor use, providing a warm and welcoming atmosphere to any room. With a Color Temperature of 3000K/4500K/6000K, you can choose the perfect lighting to match your needs and preferences.

This LED cabinet light is perfect for use in a wide range of settings, including in your kitchen, bathroom, bedroom, or any other space where you need an automatic light. With its motion sensor technology, it is incredibly easy to use and provides a hands-free lighting solution that is perfect for busy people on the go.

Overall, our LED cabinet light with motion sensor is the perfect solution for anyone looking for an easy, convenient, and energy-efficient way to illuminate any indoor space. With its long-lasting rechargeable battery, motion sensor technology, and customizable color temperature, it is sure to provide the perfect lighting for any situation.

Features:

Product Name: LED motion sensor light

Light Source: LED

Brightness: Adjustable

Type: Motion Sensor Light

Power Source: Rechargeable Lithium-ion Battery

Material: ABS

CE certified

Can be used as LED cabinet light

USB 5V charging cable included

Technical Parameters:

Technical Parameter	Value
Sensor Range	Up to 10 feet
Waterproof	No
Material	ABS
Sensor Angle	120 degrees
Color Temperature	3000K/4500K/6000K
Installation Method	Magnetic Installation
Type	Motion Sensor Light
Dimensions	20cm-80cm
Application Scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Power Source	Rechargeable Lithium-ion Battery
Additional Features	Human body sensing, Ultra thin intelligent, Large capacity battery

Applications:

This LED motion sensor light is versatile and can be used in many different scenarios. It is perfect for lighting up any dark area, such as closets, cabinets, hallways, or even outdoor areas. It is also ideal for use in public spaces such as hospitals, schools, and offices. The motion sensor feature of this product ensures that it only turns on when it detects movement, making it energy-efficient and cost-effective. The sensor range of this product is up to 10 feet, making it perfect for small spaces.

The LC- LED motion sensor light has a three color dimming feature, allowing users to choose between 3000K, 4500K, or 6000K color temperatures. This feature is perfect for creating a specific ambiance and can be adjusted to suit different occasions and scenarios. For

example, the 3000K setting is perfect for a warm and cozy atmosphere, making it ideal for use in bedrooms or living rooms. The 4500K setting is perfect for task lighting and is ideal for use in garages or workshops, while the 6000K setting is perfect for bright and clear lighting, making it ideal for use in bathrooms or kitchens.

This LED motion sensor light is made from high-quality ABS material, ensuring its durability and longevity. It is also easy to install and comes with all the necessary hardware. The dimensions of this product are not specified, making it a versatile option for a wide range of applications. Overall, the LC- LED motion sensor light is an excellent product that offers exceptional value for money and is perfect for anyone looking for a cost-effective and energy-efficient lighting solution.

Multi-mode adjustment at will One-key switching, easy operation

3 Easy Steps

- 1 Determine the installation spacing of the iron pieces according to the spacing of the magnets in the lamp body

- 2 Adhesive after peeling off the iron sheet stick to target

- 3 The lamp is directly magnetically attracted to the iron sheet
