Product Description

2700k Warm Light Led Metal Table Lamp Charging Touch Dimmer Bedside Lamp

Product Description:

This lamp is installed in one unit, with a temperature range of 3000K-2850K, and the brightness can be adjusted according to your preferences. Whether you need a warm and comfortable atmosphere or a bright and vibrant atmosphere, this lamp can meet your needs. LED desk lamps also have brightness control function, which can adjust the brightness level of the light. This feature is particularly useful when you need to focus on a task or when you want to create a relaxed atmosphere.

Another major feature of this lamp is its charging port. It is equipped with a C-type USB charging interface, making charging and use very convenient. You can charge it with any USB port, which is convenient if you need to use it in different places.

This lamp also has a 5V charging function, which allows you to charge your phone or tablet while using the lamp. If you need to work on the device for a long time and require a reliable light source, this feature is particularly useful.

With its stylish design and modern features, LED desk lamps are a must-have for anyone who wants to improve their workspace or home environment. Its versatility, durability, and convenience make it an excellent investment for anyone looking for reliable lighting solutions.
