Product Description

Ip67 Waterproof Multi-Color Cutting 12w/M Led Single Color 8 * 16 Outdoor Flexible Neon Light

Product Description:

This LED neon light product is a single color neon light with multiple color options, perfect for any space that requires color changing lighting. RGB neon light strips offer a wide range of color and effect choices, allowing you to customize your lighting to match your mood or event. The 12V neon light of this product is very energy-efficient and can help you save on electricity bills.

One of the biggest advantages of this LED neon light product is that it can be used both indoors and outdoors. Its durable design can withstand harsh weather conditions, making it the perfect choice for outdoor activities or decoration. The neon gas type used in this product is Ne, providing bright and vibrant light that will definitely attract attention.

Whether you want to add some color to your home, office, or event, this LED neon light product is sure to leave a deep impression on you. Its unique tube shape, flexibility, and wide range of colors make it very suitable for any space. In addition, its energy-saving design ensures that you can enjoy your lighting without worrying about high electricity bills.
