## Product Description

### Addressable Rgb Neon Light 12v 8 \* 16led Silicone Light Strip, Flexible And Cuttable Pixel Light Strip

#### Product Description:

Our LED neon light products feature a silicone tube light strip design, giving them a 25mm flexible and cuttable unit. This feature allows you to customize the length of the light bar to fit any space you want to light up. Whether you need to decorate a large area or a small one, this flexible neon light can be adjusted to the length you want.

This LED neon light product is made of soft silicone, ensuring that it emits bright and vibrant light. It is also energy-efficient, making it an economically effective choice for long-term use. You can save a lot of money on your energy bill without sacrificing lighting quality. Our LED neon light products are waterproof, making them perfect for indoor and outdoor use. You don't have to worry about water damage or short circuits, as this product is designed to withstand harsh weather conditions. It is the perfect decoration for your garden, courtyard, or any outdoor space that requires lighting.

If you are looking for lighting solutions that are easy to install and use, our LED neon light products are a great choice. It has a plug and play feature that allows you to install it without any hassle. You do not need any complex tools or skills to use this product. Just plug in the power and you can start!

Overall, our LED neon light products are a great investment for anyone who wants a flexible neon light that is easy to install and use. Its vibrant multi-color function, silicone tube light strip, and waterproof design make it a practical choice for indoor and outdoor use. Whether you need to decorate your home or business, this product can provide the perfect lighting solution you are looking for.
