## Product Description

### Customizable 5v Led Neon Tube Light With Ip67 Waterproof Ip Rating

#### Product Description:

The LED Neon light is made of silica gel, which is a durable and flexible material that can be easily shaped to fit any design. This makes it ideal for use in a range of settings, including homes, businesses, and public spaces. The light is also dimmable, allowing users to adjust the brightness to suit their needs.

Another great feature of the LED Neon light is that it is cuttable in units of 25mm. This means that users can easily customize the length of the light to fit their specific needs and design requirements. This feature also makes it easy to install the light in tight or hard-to-reach spaces.

The LED Neon light is also a flexible neon light, which means that it can be bent and shaped to fit any design. This makes it ideal for creating unique and eye-catching lighting displays in a range of settings, including bars, restaurants, and retail spaces.

In summary, LED neon lights are a multifunctional and energy-efficient lighting solution that offers a range of features and benefits. It is made of durable and flexible silicone, with multiple luminescent colors, adjustable brightness, and can be cut, with a unit of 25mm. It can be controlled using various methods and is a flexible neon light, making it perfect for creating unique and eye-catching lighting displays.
