## Product Description

### 5v Led Neon Usb With Switch Outdoor Waterproof Single Color Flexible Atmosphere Light Belt

#### Product Description:

This product has over 1-5 meters of specifications to choose from, which is sufficient to meet different design needs. The 6 \* 12 variant is perfect for those who enjoy compact and subtle lighting effects.

One of the most prominent features of this LED neon light product is its input voltage option. USB 5V power supply ensures you have a flexible and convenient power supply. For those who want to use it with a power bank or computer USB port, the 5V USB option is a great choice.

This product also has a wide viewing angle of 120 degrees, ensuring even distribution of light and a larger coverage area. This makes it a great choice for use in larger spaces such as living rooms, corridors, and even outdoor areas.

In short, our LED neon light products are a great addition to any space. The LED light source and flexible input voltage options make it an energy-saving and multifunctional lighting solution. The specifications of 1-5 meters allow you to freely choose the perfect size that suits your needs, while the wide viewing angle ensures even distribution of light. The 5V USB makes it convenient and easy to power, making it an excellent choice for anyone who wants to add a unique touch to their space.

Ip Grade	IP67

#### Applications:

One of the most popular application occasions for the silica gel neon light is in commercial settings such as bars, restaurants, and retail stores. The bright and eye-catching colors of the neon light can help attract customers and create a fun and lively atmosphere. The flexibility of the tube shape allows the neon light to be shaped into any design or pattern, making it perfect for creating unique and customized signage.

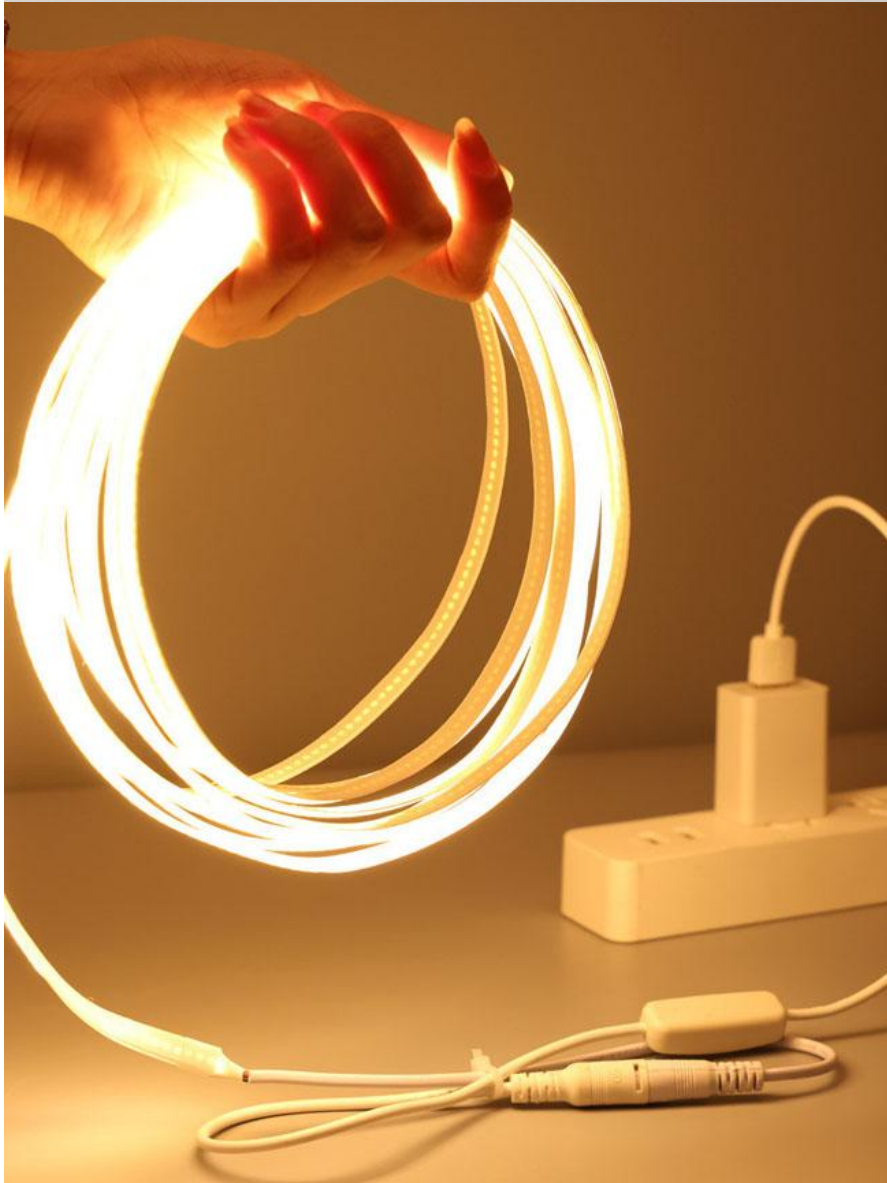

Another great use for the silica gel neon light is in residential settings, such as home decor and accent lighting. The neon light can be used to add a pop of color to any room, and the DIY feature allows homeowners to create their own unique designs and patterns. The flexibility of the tube shape also makes it easy to install the neon light in hard-to-reach or curved areas.

Outdoor events and festivals are also great scenarios for the silica gel neon light. The bright and vibrant colors of the neon light can add a festive and fun atmosphere to any outdoor setting. The durability of the silicone material makes the neon light resistant to water and weather, making it ideal for outdoor use.

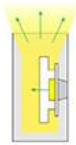

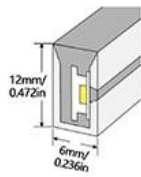

Overall, the Linkop LC-HZY-5V-USB-6\*12 LED Neon light is a versatile and innovative product that can be used in a wide range of

occasions and scenarios. Its flexibility, energy-efficiency, and durability make it a great alternative to traditional glass neon lights. With a minimum order quantity of 10 meters, and packaging details in a bag, the product is easy to order and receive. The supply ability of 200000 meters per month and delivery time of 3-8 days make it possible to receive the product in a timely manner. Payment terms via TT and certification with CE ensure quality and reliability.
