Product Description

Diy Flexible Neon Light Addressable Rgb Luminous For Outdoor Decoration 24v

Product Description:

The Silicone material used in this LED Addressable Neon rope is both flexible and durable, allowing you to bend and shape the light strip to your desired design. Whether you want to create a unique sign or decorate a room, this light strip will adapt to your needs. The Silicone material also ensures that the light strip is resistant to damage from environmental factors such as heat, water, and UV rays. Another great feature of this LED Addressable Neon rope is that it is dimmable, allowing you to control the brightness of the light to your preference. This feature makes it perfect for creating a cozy ambiance, or for providing bright lighting for a work area. The dimming feature also ensures that the light strip is energy-efficient, as you can reduce the brightness when it is not needed.

The LED Neon rope is easy to install and can be cut to your desired length, making it perfect for any size project. The LED light source ensures that the light emitted is bright and consistent, providing a beautiful glow to any space. The Silicone material used in this light strip also ensures that the light is evenly distributed, creating a uniform glow.

In summary, our Silicone tube light strip is a flexible, durable, and dimmable LED Neon rope that is perfect for both indoor and outdoor use. Its IP Grade of IP67 ensures that it is resistant to environmental factors such as water, heat, and UV rays, making it a long-lasting investment. The Silicone material used in the light strip is both flexible and durable, allowing you to bend and shape the light strip to your desired design. Its dimmable feature allows you to control the brightness of the light to your preference, making it perfect for a variety of occasions. Overall, this LED Addressable Neon rope is the perfect addition to any home or business decor.

Features:

Product Name: LED Addressable Neon light
