Voltage	12-24V
Network Protocol	IR/RF
Adjust Brightness	Yes
Color Options	16 Million
Change Mode	Yes
Battery	CR2025 Battery 1pcs

Applications:

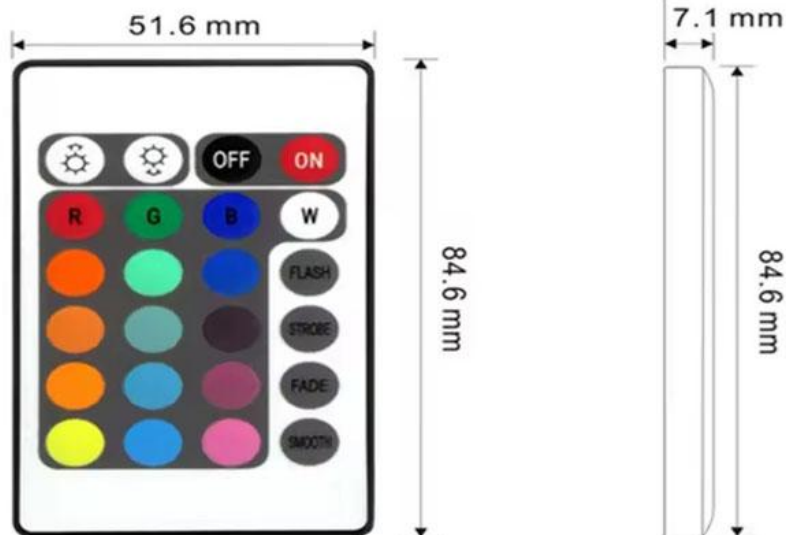

Linkop's LCSD-IR-24Key 6A led controller is a high-quality product that is perfect for controlling RGB LED strips. This product is manufactured in Guangdong, China and has been certified with CE. The minimum order quantity for this product is 10 pieces and it comes packed in a bag. The delivery time for this product is between 3-8 days and payment terms are TT. The LCSD-IR-24Key 6A led controller is great for a variety of different application occasions and scenarios. Whether you are looking to create mood lighting in your home, or want to add some color to your outdoor patio, this product is perfect for you. The 24-key controller allows you to easily change the color and brightness of your LED strip, giving you complete control over the ambiance of your space. The LCSD-IR-24Key 6A controller not only looks sleek and modern, but it also helps to protect the controller from damage. The 4 PIN connection mode ensures that your LED strip will be securely connected to the controller, while the control distance of 5-10 meters means that you can easily control your LED strip from a distance. The LCSD-IR-24Key led controller is powered by a CR2025 battery, which is included with the product. Unfortunately, this product does not have a mobile app, but it is still easy to use and perfect for a variety of different scenarios. Whether you are looking to create a romantic atmosphere in your bedroom, or want to add some color to your outdoor space, the LCSD-24A led controller is the perfect

product for you.

In addition to its great features, the LCSD-IR-24Key led controller is also very versatile. It is applicable for a variety of different types of RGB LED strips, making it perfect for a wide range of different applications. With a supply ability of 300000pcs per month, this product is always readily available for purchase.

In conclusion, if you are looking for a high-quality LED strip dimmer, the Linkop LCSD-IR-24Key led controller is the perfect product for you. 24-key controller, and versatile applicability make it perfect for a wide range of different application occasions and scenarios.

There is also a 12A version of this controller, which reaches a staggering 12V144W, can easily connect 600 leds, and the price is only \$0.2 more
