Product Description

Mini Smart Led Controller With Music Voice Control App And Built In Microphone

Product Description:

LED controller is a type of light emitting diode controller that can be used to control the brightness and color of LED lights. The LED controller is durable. Its design can withstand the wear and tear of daily use, making it a reliable choice for your LED lighting needs. The LED controller has multiple functions, making it an excellent choice for your lighting needs. One of its prominent features is its ability to operate in music and voice control modes. This multifunctional feature allows you to control your lighting with your voice or favorite music, making it a fun and convenient way to control your lighting.

The control distance of the LED controller is 5-10 meters, which is very suitable for large rooms. With this range, you can control your lighting from a distance, making it easy to adjust the brightness and color of your lights without having to get up and manually adjust them. The LED controller has intelligent connection function, allowing you to control lighting through Bluetooth application. With this feature, you can control the color, brightness, flicker mode, and more of the light strip from your smartphone, making it easy to adjust lighting from anywhere in your home or office.

The LED controller allows you to easily change colors, making it easy to create the perfect atmosphere for any occasion. With its color changing ability, you can create a warm and enticing atmosphere for a dinner party or a fun and lively atmosphere for a gathering. In summary, the LED controller is a multifunctional and reliable product that is very suitable for your LED lighting needs. The intelligent connection Bluetooth APP and color changing function make it a convenient and easy-to-use product, perfect for residential and commercial use.

Features:

Product Name: led controller
Output port: 4 PIN
Applicable types: RGB
Change color: Yes
Input port: DC
Connection mode: 4 PIN

Technical Parameters:

Battery	No battery required
Max Load Current	12A
Attribute	Built-in Microphone
Network Protocol	No remote control
Smart Connect	Bluetooth APP
Change color	Yes
Control Distance	5-10 Meters
Applicable types	RGB
Remote control unit	No
Mode	MUSIC/Voice Control

Applications:

The Linkop LCSD-BL-mini-DC-W LED controller is a multifunctional and user-friendly device that is highly suitable for various occasions and scenarios. Whether you want to create a vibrant and colorful atmosphere for gatherings or events, or just want to add some ambiance to your home or office, this product is a great choice.

One of the main features of Linkop LCSD-BL-mini-DC-W is its ability to change color. With this color changing light remote control, you can easily adjust the color tone, saturation, and brightness of your LED lights to create the perfect mood or atmosphere. Whether you want to create a warm and comfortable atmosphere or a bright and vibrant space, Linkop LCSD-BL-mini-DC-W can help you achieve the desired effect.

In addition to its color changing function, Linkop LCSD-BL-mini-DC-W can also serve as an LED light strip dimmer. This means that you can adjust the brightness of the lights according to your own needs and preferences. Whether you want to create a bright and vibrant space, or a softer and more relaxed environment, this product can help you achieve the right level of lighting.

Linkop LCSD-BL-mini-DC-W is also designed to be smart and intuitive. Through its Bluetooth app, you can easily connect your smartphone or other mobile device to the controller to remotely control your lights. This makes it easy to adjust lighting settings anywhere in the room without having to get up and physically adjust the controller.

Linkop LCSD-BL-mini-DC-W is also very easy to use and install. With its 4-pin connection mode and DC input port, you can quickly and easily connect the LED light to the controller and start using it immediately. With CE certification, you can be confident that it meets the highest quality and safety standards.

Whether you are a professional event planner, a homeowner looking to enhance your living space, or a business owner looking to create a more attractive atmosphere for your clients, the Linkop LCSD-BL-mini-DC-W LED controller is an excellent choice. The minimum order quantity is only 10 pieces, with packaging details for one bag and a delivery time of 3-8 days, making it both affordable and convenient to use. Our supply capacity is 300000 pieces per month, and you will definitely get the quantity you need when you need it.

So, why wait? If you are looking for high-quality, multifunctional, and user-friendly LED controllers that can help you create perfect lighting for any occasion or scene, then take a look at Linkop LCSD-BL-mini-DC-W. Order your product today and start enjoying the benefits of a color changing light remote control and LED strip dimmer in your home, office, or workspace!
