Product Description

5v Usb Rgb Bluetooth Controller Intelligent Music Control Rgb Light Belt

Product Description:

The voltage range of this RGB LED controller is 5V, suitable for lighting projects with 5V-RGB light strips.

The controller is equipped with an intelligent mode: controlled by downloading a mobile app, giving you complete flexibility and control over your lighting experience. In MUSIC mode, the controller synchronizes the lighting with the rhythm of the music, creating a lively and enjoyable atmosphere. Make it easy to set emotions for any occasion.

This controller is not equipped with a remote control and can only be controlled through a mobile app, so you no longer have to worry about losing the remote control.

For tech savvy individuals, this RGB LED controller also comes with intelligent connectivity capabilities. Compatible with Bluetooth apps, you can control your lighting settings with your smartphone. This feature allows you to adjust lighting from anywhere in the room, providing you with ultimate convenience and control.

In summary, our RGB LED controller is a top-notch product that provides seamless control for your lighting settings. With its advanced features and compatibility with all types of RGB lighting, this controller is perfect for any lighting project. The intelligent connection function compatible with Bluetooth APP has taken this controller to a new level in terms of convenience and control. Get this RGB LED controller today and experience the ultimate lighting experience!

Features:

Product Name: led controller

Change color: Yes

Mode: MUSIC/APP

Smart Connect: Bluetooth APP

Voltage: 5V

Remote control unit: No remote control

Mini controller

Technical Parameters:

Attribute	Specification
Product Name	RGB Strip Controller
Working Voltage	DC5V
Built-in Microphone	Yes
Remote Control Unit	No
Smart Connect	Bluetooth APP
Adjust Brightness	Yes
Input Port	USB
Output	1 to 1
