

5-24v Monochrome Led Controller With 3 Keys Wireless Remote Control

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LCSD-3K-8A
- Minimum Order Quantity: 10pcs
- Price: \$2.6/Pcs
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 300000pcs/ month

Product Specification

- Control Distance: 5-10 Meters
- Input Port: Terminal
- Voltage: 5-24V
- Applicable Types: Single Color
- Remote Control Unit: 3key
- Change Color: No
- Connection Mode: 2 PIN
- Adjust Brightness: Yes
- Highlight: Monochrome Led Controller 5v,
24v Led Controller,
Wireless Remote Control Led Controller

Product Description

5-24v Monochrome Led Controller With 3 Keys Wireless Remote Control For Single Color Light Strip Dimming

Product Description:

With this LED controller, you have the ability to adjust the brightness of your LED light strips, allowing you to create the perfect atmosphere for any occasion. Whether you want to provide soft, warm lighting for a romantic dinner or bright, colorful displays for a party, this controller allows you to fully control the lighting.

The LED controller is also equipped with RF433 frequency, providing you with options on how to control lighting. Allow you to control the LED light strip with a remote control, making it easy to adjust the lighting on your comfortable sofa. Allowing you to freely adjust lighting anywhere in your home or office.

The working voltage of the LED controller is DC5V-24V, compatible with various single color LED light strips. It has a control distance of 5-10 meters, allowing you to control your lighting from a comfortable distance.

Whether you are an experienced lighting designer or just starting out, this LED controller is perfect for anyone looking to enhance their lighting experience. With its versatility, durability, and ease of use, this LED controller is the perfect complement to any lighting setup.

Features:

Product Name: led controller

Remote control unit: 3key

Output port: DC OR 2 PIN

Control Distance: 5-10 Meters

Max Load Current: 8A

Input port: Terminal

Output Type: Single color LED Light strip

Technical Parameters:

| | |
|---------------------|--------------|
| Battery | LR44 Battery |
| Remote control unit | 3 key |
| Adjust brightness | Yes |
| Voltage | 5-24V |
| Output port | 2 PIN |
| Network Protocol | IR/RF |
| Control Distance | 5-10 Meters |
| Working Voltage | DC5V-24V |
| Change color | No |
| Input port | DC |

Applications:

The Linkop LCSD-3K-8A LED controller is designed for monochrome LED lights. The working voltage of this product is DC5V-24V, and it can be connected using a 2pin connection method. The input port is in 2pin format.

The Linkop LCSD-3K-8A LED controller is suitable for various scenarios. This product is very suitable for use in homes, offices, restaurants, and other commercial spaces. It can be used to create unique lighting effects, perfectly creating a comfortable and cozy atmosphere. This product is particularly suitable for entertainment venues such as clubs and bars.

The Linkop LCSD-3K-8A LED controller is highly suitable for various applications. This product is great for use in lighting fixtures such as bay lighting, accent lighting, and backlighting. It is also suitable for identification and display lighting. This product is a great solution for any project that requires precise control of LED lighting.

This product is easy to install and operate, making it an ideal choice for DIY and professional installation. The supply capacity of Linkop LCSD-3K-8A LED controller is 300000 units per month, which can meet the needs of any project at any time.
