Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LC-HZY-12V/24V-COB-480D
- Minimum Order Quantity: 100 meters
- Price: \$1.3/meters
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000meters/ month

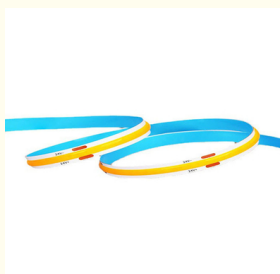

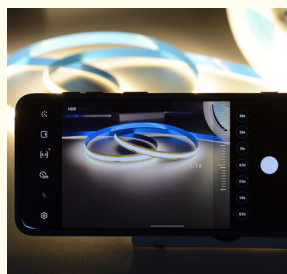

Product Specification

- Input Voltage: 12V/24V
- Color Temperature: Single Color
- Led Type: COB
- Diameter: 8mm
- Power: 12W/m
- Ip Rating: IP20
- Beam Angle: 180 Degrees
- Warranty: 1 Years
- Highlight: Cob LED Light Strip 12v,
480leds/M Cob LED Light Strip,
Household Cob LED Light Strip

Product Description

High Brightness And Low Voltage Cob Light Strip 12v Single Color 480leds/M Household Lighting

Product Description:

COB LED lights come in both RGB and monochrome options, allowing customization to fit any design or preference. The input voltage of this light strip is 12V or 24V, compatible with most power sources.

The width of the COB LED strip is 8mm, making it easy to install in narrow spaces. The blue adhesive base ensures that the light strip is firmly fixed in the appropriate position, making installation quick and easy.

Whether used for accent lighting or illuminating larger spaces, COB LED strips are the perfect solution. With its high luminous flux, customizable color options, and versatile operating voltage, this light strip is ideal for any application.

Features:

Product Name: COB LED Light Strip

Ip Rating: IP20

Cuttable Length: 2.5MM

Led Type: COB

Color Temperature: Single Color

Length: 5 Meters

Features:

Flexible and easy to install

IP20 rated for indoor use

COB technology for bright and even lighting

RGB color-changing light strip or single color option

Can be cut to a length of 2.5MM

Technical Parameters:

Cri	80+
Length	5 Meters
Colours	White light, warm white light, neutral light, red, green, blue, golden, pink, purple, ice blue
Beam Angle	180 Degrees
Power	12W/m
Operating voltage	12V/24V
Input Voltage	12V/24V
Luminous Flux	1000lm/m

This is a flexible strip lamp, also known as a lamp tape self-adhesive or COB light belt.

Applications:

Cobb LED strip lights are ideal for indoor lighting, such as home decoration, commercial lighting, cabinet lighting, and display lighting. Its multiple color temperature and monochrome options can create a warm and enticing atmosphere or a vibrant and colorful atmosphere, depending on the occasion. This can be easily installed and controlled, making it a perfect DIY project and professional installation.

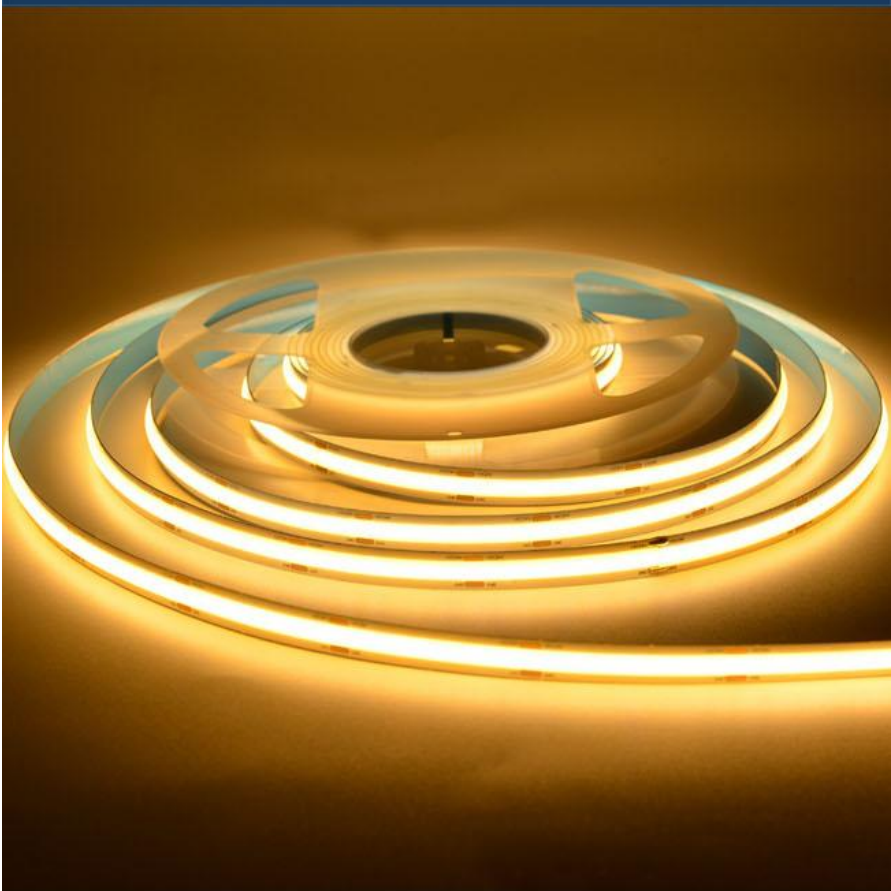

Cobb LED light strips are also suitable for outdoor lighting, such as landscape lighting, architectural lighting, signage lighting, etc. Its IP20 rating ensures that it is dustproof and waterproof, making it suitable for dry and indoor environments. The energy-saving and low thermal radiation characteristics of this light strip also make it an excellent choice for sustainable and long-lasting lighting solutions.

Cobb LED lights come in different lengths and can be cut every 3 millimeters, making them customizable to meet various application needs. It has a voltage option of 12V/24V, making it compatible with most power sources. In addition, it is dimmable, allowing for flexible management of light levels and intensities.

Linkop LC-HZY-12V/24V-COB-480D cob LED strip has passed CE certification to ensure its quality and safety standards. The minimum

order quantity for this product is 100 meters, packaged in one bag. The delivery time is 3-8 days, and the payment method is wire transfer. The product has a monthly supply capacity of 200000 meters, ensuring that customers can easily purchase when needed. The Cobb LED strip comes with a 1-year warranty, giving customers peace of mind about the quality and reliability of the product. With its advanced technology, customizable options, and versatile applications, it is the preferred choice for customers looking for high-quality lighting solutions.
