### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LC-HZY-12V-COB-288D
- Minimum Order Quantity: 50 meters
- Price: \$0.95/meters
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000meters/ month

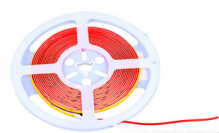

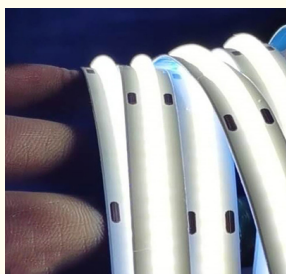

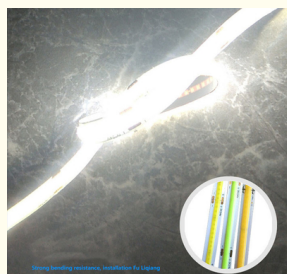

### Product Specification

- Input Voltage: 12V
- Cri: 85+
- Colour: Warm White Light/neutral Light/white Light/Red/green/blue/golden/purple/pink/ice Blue
- Color Temperature: Single Color
- Dimmable: Yes
- Cuttable Length: 2.5MM
- Ip Rating: IP20
- Length: 5 Meters
- Highlight: 5m Cob Light Strip, Cob Light Strip 12v, 288 Leds Cob Light Strip

## Product Description

### 5m Cob Light Strip 12v Single Color 288 Leds Enhances Lighting And Durability

#### Product Description:

The input voltage of this LED strip is 12V, which makes it easy to integrate it into various lighting settings, whether you are using it to emphasize lighting or as the main light source.

Another great feature of this COB LED strip is that it comes with adhesive. This makes it easy to install anywhere you need it without the need for additional installation hardware. Simply peel off the back and stick it onto any clean, dry surface.

If you are looking for a dimmable lighting solution, this COB LED strip is a great choice. With its advanced dimming technology, you can adjust the brightness of the strip according to your needs. This makes it perfect for creating the perfect atmosphere in any space, whether you're looking for bright work lighting or soft, emotional lighting for relaxing nights at home. And it also has up to 10 colors for you to choose from, there is always one color that suits you.

It is worth noting that this COB LED strip is not waterproof, which means it is most suitable for indoor use. However, if you are looking for an outdoor lighting strip that can withstand elements, we offer a range of other options specifically designed for outdoor use.

Finally, this COB LED strip has an IP20 rating, which means it can prevent solid objects with a diameter greater than 10 millimeters.

Although this level is not suitable for outdoor use, it is sufficient for most indoor applications.

In summary, our COB LED strip is a multifunctional and efficient lighting solution suitable for a wide range of applications. With its flexible input voltage, the strip can be cut arbitrarily and is easy to install and customize to meet your needs. Although it is not suitable for outdoor use, its IP20 rating makes it an excellent choice for most indoor applications.

#### Features:

Product Name: COB Single Color LED Light Strip

CRI: 85+

Warranty: 1 Year

Color Temperature: Single Color

IP Rating: IP20

Features:

COB light belt design for high brightness and energy efficiency

Lamp tape self-adhesive for easy installation and versatility

Up to 10 color options are available, including white light, warm white light, and others

IP20 rating for indoor use

Backed by a 1-year warranty for added peace of mind

#### Technical Parameters:

Beam Angle	180 Degrees
Power	12W/m
Length	5 Meters
Cri	85+
Led Type	COB
Input Voltage	12V
Colours	Warm white light/neutral light/white light/Red/green/blue/golden/purple/pink/ice blue
Color Temperature	Single Color
Ip Rating	IP20
Operating Voltage	12V

#### Applications:

Our Cob LED strip is 5 meters long, with a power of 12W/m and an input voltage of 12V. It has a wide range of applications and can adapt to various settings. It has adhesive with blue tape, making it easy to install and use.

The Cobb LED light strip has multiple options for single color and other colors, providing a range of options to enhance any setting.

Suitable for various application scenarios, including but not limited to:

Interior decorations for homes and commercial spaces

Lighting for events and parties

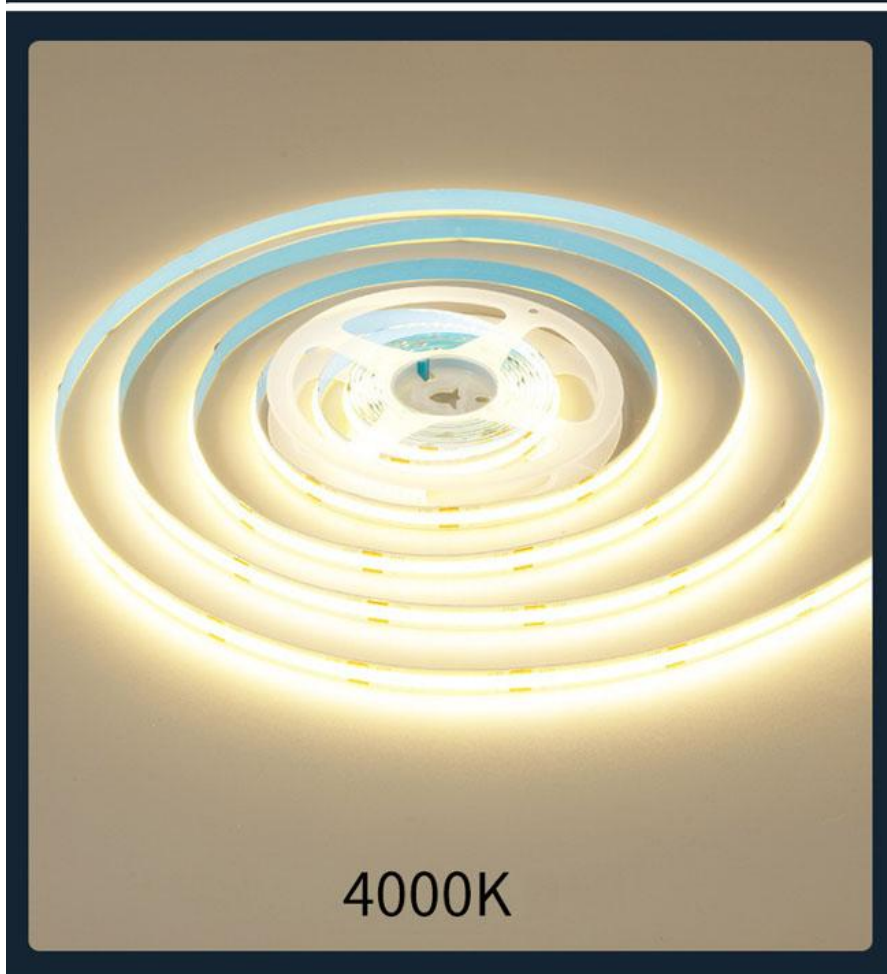

Accent lighting for furniture, ceilings, and walls

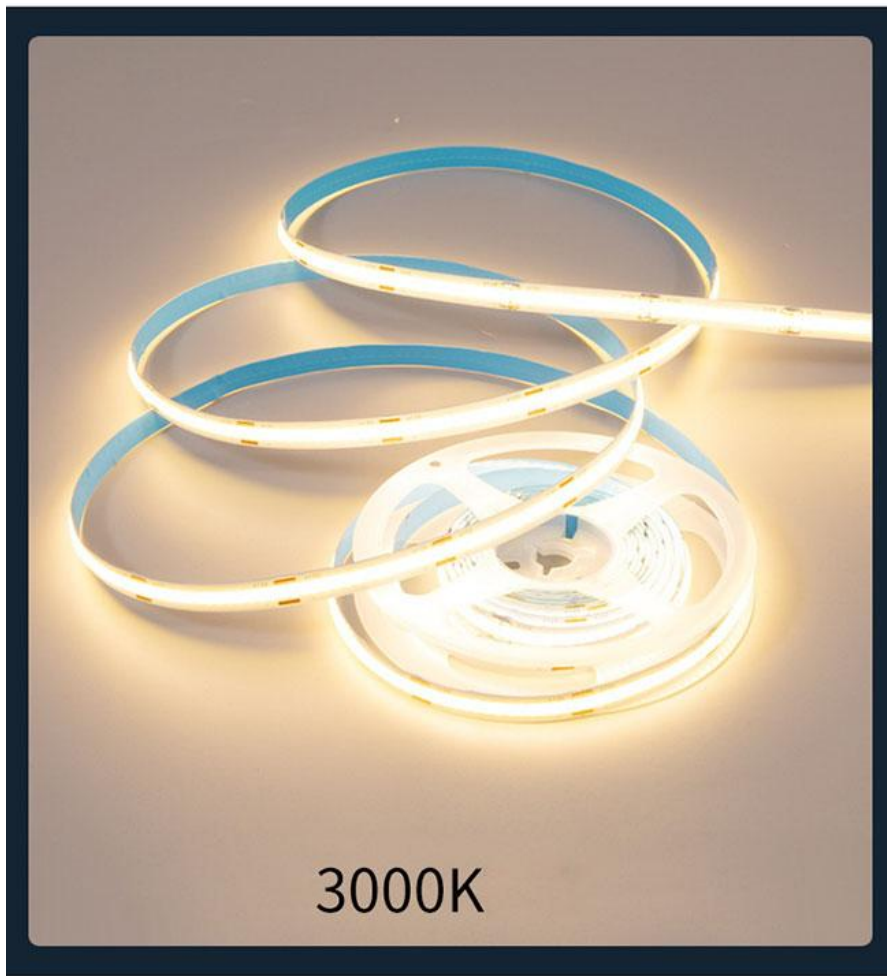

Lighting for art and photography displays

Our non-waterproof cob led light strip is particularly ideal for indoor settings. It is durable and long-lasting, providing consistent brightness and quality. With an input voltage of 12V, it is energy-efficient and cost-effective.
