## Product Description

### Led Can Cut Cob Light Strip 24v12mm Rgbw 784leds/M Light Lamp Ip20 5pin

#### Product Description:

One of the standout features of our COB LED light strip is its color temperature. You can choose between RGB or single color options to achieve the perfect look for your space. Whether you want a warm and cozy atmosphere or a bright and energizing one, this light strip can deliver.

Another great feature of this product is its warranty. We're confident in the quality of our light strip, which is why we offer a 1-year warranty. You can trust that this product will provide reliable lighting for years to come.

When it comes to CRI, our COB LED light strip boasts an impressive 90+. This means that the colors will appear natural and vibrant, making your space look its best. And with a beam angle of 180 degrees, you can be sure that the light will be evenly distributed throughout the room.

It's also worth noting that our COB LED light strip has an IP20 rating, which means it's protected from dust but not from water. And with a width of just 12mm, it's easy to install in a variety of spaces. Plus, with a 24V **working voltage**, you can be sure that this light strip will be energy-efficient and cost-effective.

#### Applications:

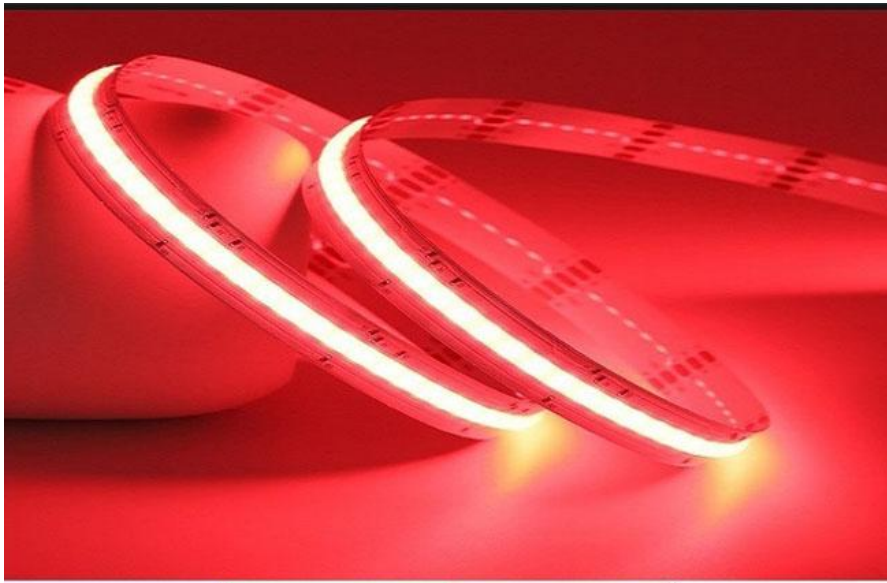

With a minimum order quantity of 50 meters, this cob led light strip is perfect for large-scale installations. The product is CE certified and comes from Guangdong, China, ensuring high quality and reliability. The packaging details include a bag, and the delivery time is 3-8 days. Payment terms for the cob led light strip are TT, and the supply ability is 200000 meters per month.

The Linkop LC- cob led light strip is available in both RGB color-changing and single-color options. With a power of 18W/m and an IP20 rating, this cob led light strip is both energy-efficient and durable. The cuttable length of 2.5mm enables easy customization and ensures the perfect fit for any application.

The cob led light strip is perfect for a variety of occasions and scenarios. It can be used to create ambient lighting in living rooms, bedrooms, and other living spaces. It is also ideal for use in offices and commercial spaces, providing bright and energy-efficient lighting. The RGB color-changing light strip is perfect for creating a fun and dynamic atmosphere, while the single-color option is ideal for more formal settings.

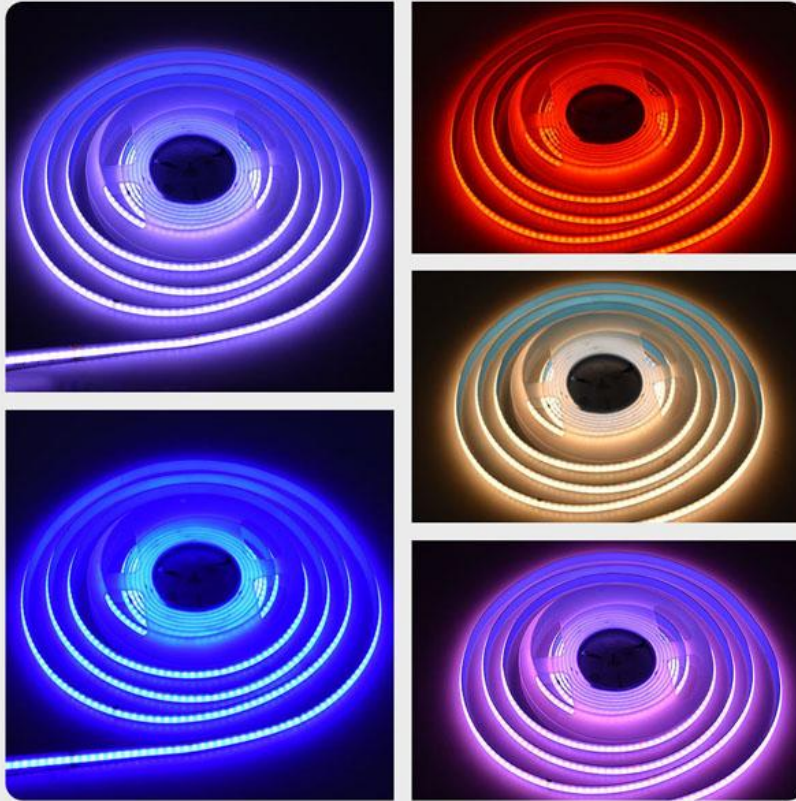

In conclusion, the Linkop LC-HZY-24V-784D-12mm-5p led light strip is a versatile and reliable lighting solution that is perfect for a variety of applications. With its low voltage, non-waterproof design, and easy installation, this cob led light strip is the perfect choice for anyone looking to add some extra illumination to their home or office.
