12w/M Cob Led Light Strip Adjustable 24v 400 Leds/M 5mm Single Color

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LC-HZY-24V-COB-400D-5mm
- Minimum Order Quantity: 50 meters
- Price: $1.2/meters
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000meters/ month

Product Specification

- LED Qty: 400leds/M
- Width: 5mm
- Luminous Flux: 1000lm/m
- Input Voltage: 24V
- Power: 12W/m
- Length: 5 Meters
- Beam Angle: 180 Degrees
- Color Temperature: Single Color
- Highlight: **12w/M Cob Led Light Strip**, **Adjustable Cob Led Light Strip**, **400 Leds/M Cob Light Strip**

Product Description

Adjustable 12w/M Cob Led Strip Light 24v 400 Leds/M 5mm Single Color High Brightness Light Strip

Product Description:

The COB LED strip has a working voltage of 24V and is easy to use. Whether you are looking for a bright light strip for your DIY project or a powerful linear light strip for your commercial space, this light strip can meet your needs. 24V 5mm linear lights can be installed in small spaces, making them ideal for home or commercial lighting and ambiance. The versatility of light strips makes them an ideal choice for various lighting requirements.

The beam angle of the light strip is 180 degrees, ensuring that the light is evenly distributed throughout the room. The wide beam angle also ensures no black spots or shadows, and 400leds/m makes the space brighter and more attractive.

The COB ribbon adopts high-quality COB LED technology to ensure bright, efficient, and long-lasting light. COB LEDs are known for their high luminous efficiency, which means they produce more light per watt than traditional LEDs. This makes the light strip highly energy-efficient and cost-effective. COB LEDs are also known for their long lifespan, which means you don't have to worry about replacing the light strip quickly.

This light strip has an IP20 rating and is suitable for use in dry indoor areas. IP20 rating means that the light strip can prevent dust and other small particles, but it is not waterproof. This makes it very suitable for use in homes, offices, and other dry indoor areas.

In short, COB LED strips are the perfect solution to meet all your lighting needs. The power of the light strip is 12W/m, the working voltage is 24V, the beam angle is 180 degrees, it adopts COB LED technology, IP20 level, with high versatility, high efficiency and high cost-effectiveness. Whether you are looking for a bright linear light or a powerful COB light strip, this light strip has already been covered by you.

Features:

Product Name: COB LED Light Strip
Width: 5mm
CRI: 90+
Colour: White Light, Warm White, Neutral Light, Red, Green, Blue, Ice Blue, Golden Yellow, Pink, Purple
LED Type: COB
Color Temperature: Single Color
Power Supply: 24V

Technical Parameters:

Width	5mm
Beam Angle	180 Degrees
Dimmable	Yes
Input Voltage	24V
Luminous Flux	1000lm/m
Length	5 Meters
Power	12W/m
Led Type	COB 400 leds
Cuttable Length	2.5MM
Colour	White Light,Warm White,Neutral Light,Red,Green,Blue,Ice Blue,Golden Yellow,Pink,Purple
IP Rating	IP20

Applications:

The input voltage of Linkop LC-HZY-24V-COB-400D-5mm LED strip is 24V, with 400 lights per meter. This makes its brightness very high, with a color rendering index of 90+, ensuring high quality of emitted light. Cobb LED light strips come in a variety of colors to choose from, including white, warm white, neutral light, red, green, blue, ice blue, golden yellow, pink, and purple.

One of the main features of Linkop LC-HZY-24V-COB-400D-5mm LED strip is that it can be cut arbitrarily. This makes it very suitable for

various scenarios, including architectural lighting, signage lighting, and stage lighting. Monochrome COB provides a consistent light source, making it ideal for use in areas that require uniform illumination.
