Product Description

Single Color Light Strip For Diy Projects 12v 384leds/M 3mm Ultra Narrow Cob Led Light Strip

Product Description:

One of the standout features of this light strip is its impressive luminous flux of 1000lm/m. This means that each meter of the strip produces an impressive amount of light, making it perfect for illuminating larger areas or creating a bright and vibrant atmosphere in any room.

Another great feature of this COB light strip is its cuttable length of 2.5MM. This allows you to customize the length of your light strip to perfectly fit your space, making it ideal for use in both residential and commercial settings. With a length of 5 meters, this light strip is long enough to be used in a variety of applications, yet compact enough to be easily installed in tight spaces.

It's worth noting that this light strip is rated IP20. While it may not be suitable for use in damp or wet environments, its durable construction and reliable performance make it a great choice for a variety of indoor applications.

Whether you're looking to illuminate a workspace, add some mood lighting to your home, or create an eye-catching display, this COB LED light strip is the perfect choice. With an input voltage of 12v, it's easy to power and can be used in a wide range of settings. So why wait? Order yours today and see the difference for yourself!

Features:

Product Name: cob led light strip

Input Voltage: 12V

Cri: 90+

Luminous Flux: 1000lm/m

Ip Rating: IP20

Color Temperature: Single Color

12V: Yes
