Plus, the strip is designed to be easily connected to a power source, so you can start enjoying its benefits right away. Overall, our Cob LED light strip is an excellent choice for anyone looking for high-quality, reliable lighting. Its bright and powerful luminous flux, combined with its flexibility and ease of installation, make it the perfect choice for a wide range of applications. So why wait? Order now and start enjoying the benefits of our Cob LED light strip today!

Features:

Product Name: cob led light strip
Beam Angle: 180 Degrees
Dimmable: Yes
Input Voltage: 24V
IP Rating: IP20
Luminous Flux: 1000lm/m
Additional Features:
Lamp tape self-adhesive
24v
cob w+ww light strip

Technical Parameters:

Led Type	COB
Luminous Flux	1000lm/m
Dimmable	Yes
Color Temperature	W+WW
Operating voltage	24V
Width	8mm
Length	5 Meters
Warranty	1 Years
LED Qty	608 Leds/m
Beam Angle	180 Degrees
Additional Attributes	Non-waterproof, Lamp tape self-adhesive, cob W+WW light strip

Applications:

One of the main advantages of LC cob LED strip is its flexibility, and it is a strip with dual color temperature, including white light, warm white light, and the ability to illuminate both colors simultaneously, meeting your needs. This makes it very suitable for use in both commercial and residential environments. For example, it can be used to create eye-catching displays in retail environments or provide subtle emotional lighting in home environments.

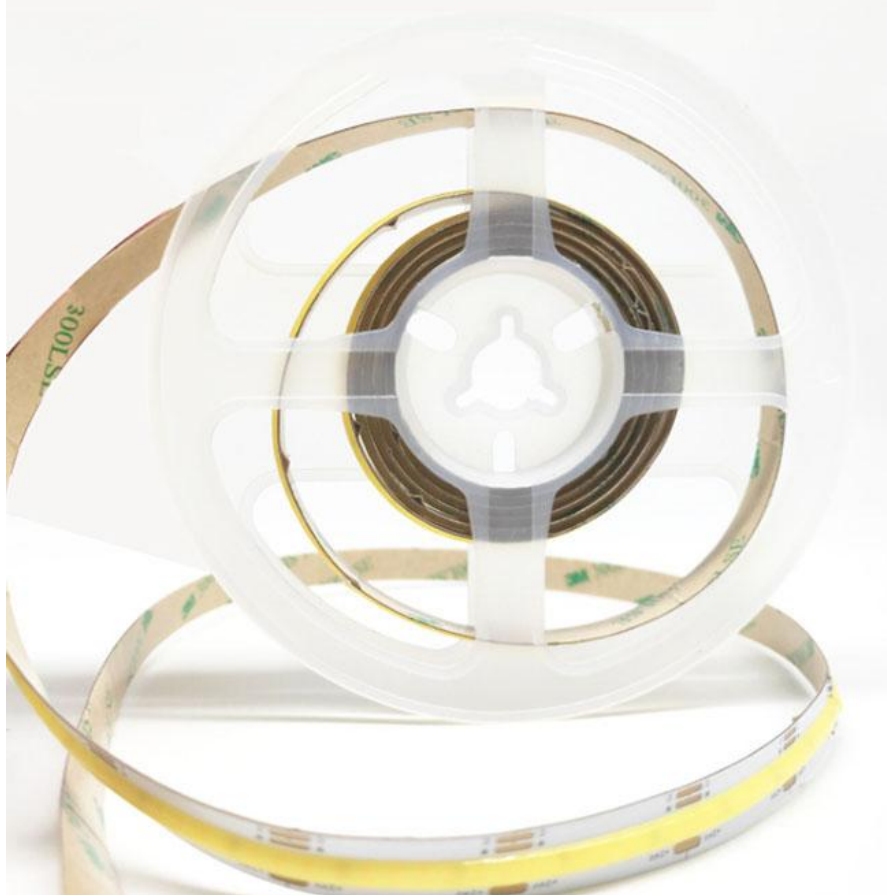

LC cob LED strip is also very durable, making it an excellent choice for outdoor use. Its 24V working voltage ensures its safe use, while its high-quality structure ensures that it will continue to be used for many years.

In specific product applications, LC cob LED strips are an ideal choice for use in a range of different settings. For example, it can be used to create stunning accent lighting in restaurants, bars, and other reception areas. It can also be used to add a touch of style and refinement to residential interiors, such as living rooms, bedrooms, and kitchens.

Cobb RGB light strips can be used to create stunning multi-color lighting effects, making them perfect for special events and occasions.

Overall, LC cob LED strip is a highly versatile and reliable product that is highly suitable for various applications. CE certification, minimum order quantity of 100 meters, packaging details of the bags, making it an ideal choice for commercial and residential customers. With a delivery time of 3-8 days and TT payment method, this high-quality product is easy to obtain when you need it. So why not try LC cob LED strip today and see if it can make a difference in your lighting needs?
