Product Description

Led Compact Night Light With Rechargeable Dimming And 30 Minute Timed Turn Off

Product Description:

The LED light source of this night light is very energy-efficient and long-lasting. You don't have to worry about frequent bulb replacement or high energy costs. By using LED technology, this night light provides bright and clear illumination, while also being gentle on your eyes. In addition, a color rendering index (CRI) of over 80 ensures that the colors in your room look natural and vivid.

This LED night light has a working time of 4 to 6 hours and is very suitable for night use. Once fully charged, you can use it continuously for several hours without worrying about the battery running out. The night light also has a special function, as long as you lightly tap or pinch it with your hand, it will adjust the brightness and provide you with a more comfortable atmosphere.

In short, if you are looking for an energy-efficient and convenient lighting solution for your home, then this motion sensor night light is your perfect product. It uses LED technology to provide bright and clear lighting, while being gentle on your eyes. Automatic LED lights are suitable for a wide range of applications, including bedrooms, living rooms, or any other area of the home that requires additional lighting. Today, to enjoy convenience and energy efficiency, this product must be provided.
