Product Description

3-Speed Brightness Adjustment Rechargeable Led Night Light Timed Shutdown

Product Description:

The working time is 6-10 hours, and this LED night light is perfect for use throughout the night without the need for constant charging. This product has dimming function, allowing you to adjust the brightness to meet your needs. Whether you are looking for a soft, subtle glow or brighter light to read, this LED night light can meet your requirements.

The color temperature (CCT) of this LED night light is 3000K, and the warm color tone of 3000K light is very suitable for creating a comfortable atmosphere.

Unlike other LED night lights, our product is non foldable. This ensures that it maintains a safe position and provides a constant light source throughout the night. Whether you use it in your child's bedroom or in the hallway, you can be confident that it will stay in place and provide a reliable light source.

In short, our luminous night light is the perfect solution for children's warm night lights. With its 3-speed brightness adjustment mode, you can create the perfect atmosphere in any room. The 6-10 hour working time ensures that it can be used throughout the night or set for timed shutdown, while the non foldable design ensures that it remains in a safe position. Buy our LED night light today and enjoy a peaceful sleep every night.

This warm children's night light is an LED night light with adjustable dimming and timed shutdown.

Applications:

Linkop LC-MY-021 silicone LED night light is a multifunctional product that can be used in various occasions and scenarios. Its dimming function makes it an excellent choice for creating a relaxed atmosphere in bedrooms, living rooms, or any other room in the house. The LED night light from dusk to dawn is also suitable for use in children's rooms, as it provides soft light to help them sleep better.

The Linkop LC-MY-021 LED night light is perfect for use or decoration at home, and its cute appearance is also one of the preferred gifts. The Linkop LC-MY-021 LED night light is also very suitable for use in daycare centers and children's rooms. The tapping dimming function creates a fun and playful atmosphere that children will enjoy, while also serving as a toy or decoration for them. The timed shutdown function allows children to automatically turn off their power after falling asleep, eliminating the need to worry about running out of battery. Low light output also helps prevent sleep disorders.

Linkop LC-MY-021 LED night light is a CE certified product manufactured in Guangdong, China. The minimum order quantity is 10pcs, and the packaging details include a color box. The delivery time is between 3-8 days, and the payment method is TT. Supply capacity of

300000 pcs/month, with a quantity of 100 pcs in cardboard boxes. The working time is between 6-10 hours, and the light source is LED. The switch is on/off, easy to use and control.
