Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LC-SP- xyd010
- Minimum Order Quantity: 10pcs
- Price: \$8.2/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 300000pcs/ month

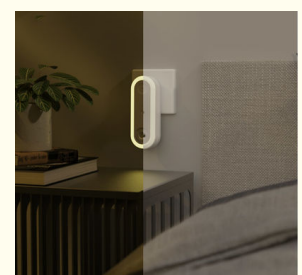

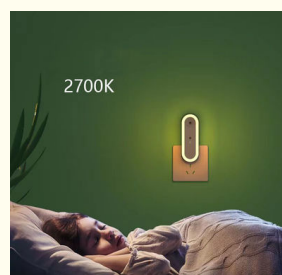

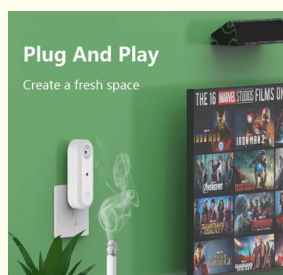

Product Specification

- Power Supply: Plug-in
- Waterproof Level: IP20
- Control Mode: Light-controlled Induction
- Carton Pcs: 100 Pcs
- Light Source: LED
- Cri: >80
- Switch: Touch
- Power: 1.5W
- Highlight: Ip20 Led Night Light, 2700k Led Night Light, Led Night Light 100v

Product Description

Plug In 100-240v Ip20 Led Night Light With Light Sensor 2700k Air Purification Night Light

Product Description:

One of the main features of this night light is its light controlled induction control mode. This means that when it detects a dimly lit environment, such as at night or in a dark room, the lights will automatically turn on. Help you save energy while still providing you with the light you need.

In addition to its convenient motion sensor function, this night light also uses negative ion purification technology. This means that the lamp releases negative ions into the air, helping to purify and freshen the air around you. This is particularly useful for those who have allergies or respiratory diseases.

The light controlled induction night light is made of high-quality V0 (Fire Class) PC+ABS material, which is both durable and safe. The lamp is also designed with an input voltage of 100-240V and plug specifications in US and EU, making it suitable for use in multiple countries around the world.

Overall, light controlled sensor night lights are the perfect complement to any bedroom, hallway, or other space that requires reliable and energy-efficient light sources. With its light controlled sensing control mode, negative ion purification technology, and high-quality materials, this night light is sure to provide you with years of reliable use.

Features:

Product Name: LED Night Light

CRI: >80

Folded: NO

Waterproof Level: IP20

Color Temperature(CCT): 2700K

Features:

Warm night light for kids

Light controlled induction LED night light

Touch sensitive light

Technical Parameters:

Material quality	V0(Fire Class) PC+ABS
Power	1.5W
Light Source	LED
Power Supply	Plug-in
Folded	NO
Colour	White
Input voltage	AC 100-240V 50/60Hz
Switch	Touch
Plug Specification	US/EU
Control Mode	Light-controlled Induction

Applications:

One of the most common uses of LED night lights is in bedrooms. This is a great addition to your bedside table, providing the right amount of light to help you navigate the room without disturbing your partner's sleep. The touch control function allows you to easily turn on and off the lights, making it perfect for those who go to the bathroom late at night.

Linkop LC-SP xyd010 LED night light is also an ideal choice for children's rooms. Its soft and warm glow creates a peaceful atmosphere, helping your child feel safe while they sleep. The light control sensing function ensures that the light only lights up when needed, which helps save energy and reduce electricity costs.

LED night lights are also very suitable for use in daycare centers. It provides an appropriate amount of light for night feeding and diaper changing, without being too bright or glaring. The touch control function makes it easy to open and close, even if you are busy.

If you enjoy reading before bedtime, the Linkop LC-SP xyd010 LED night light is perfect for you. Its soft and warm glow provides enough light to read without making your eyes tired. The light control sensing function ensures that the lights are only turned on when needed, which helps save energy.

Finally, LED night lights are also suitable for use in corridors and stairs. Its soft and warm glow provides you with enough light, neither too bright nor too dazzling. The touch control function makes it easy to open and close as needed.

Linkop LC-SP-xyd010 LED night light is a convenient and reliable lighting solution, with a minimum order quantity of 10 and a delivery time of 3-8 days. It is CE certified, ensuring that it meets the highest quality and safety standards. With a monthly supply capacity of 300000 pieces, we ensure that you always have access to this innovative product. The LED night light is packaged in a color box and can be provided with US/EU plug specifications, with an input voltage of 100-240V. The payment method is wire transfer.
