## Product Description

### 2700k-7000k Adjustable Support Table Floor Led Fill Light 65w 270 Degree Abs Leg Light

#### Product Description:

One of the key product characteristics of this LED fill light is its panoramic design, which provides a wide angle of coverage that fills the frame with soft, diffused light. This makes it an excellent choice for portrait, wedding, and fashion photography, as well as for video shoots that require high-quality lighting.

The color temperature of this LED soft light is adjustable from 2700K to 7000K, allowing you to match the lighting to your environment and achieve the perfect color balance for your subject. This is particularly useful when shooting in challenging lighting conditions or when working with different skin tones and clothing colors.

The input voltage of this LED fill light is customizable from 100-240V, making it suitable for use in a variety of locations around the world. Whether you're shooting on location or in your studio, this LED camera light is a reliable and convenient lighting solution that will help you achieve professional-quality results.

Overall, the LED Fill Flash Light is a versatile and powerful lighting tool that is perfect for photographers and videographers who need high-quality lighting for their work. Whether you're shooting portraits, weddings, fashion, or video, this LED soft light provides the illumination you need to create stunning images and videos that stand out from the crowd.

Power	65W

#### Applications:

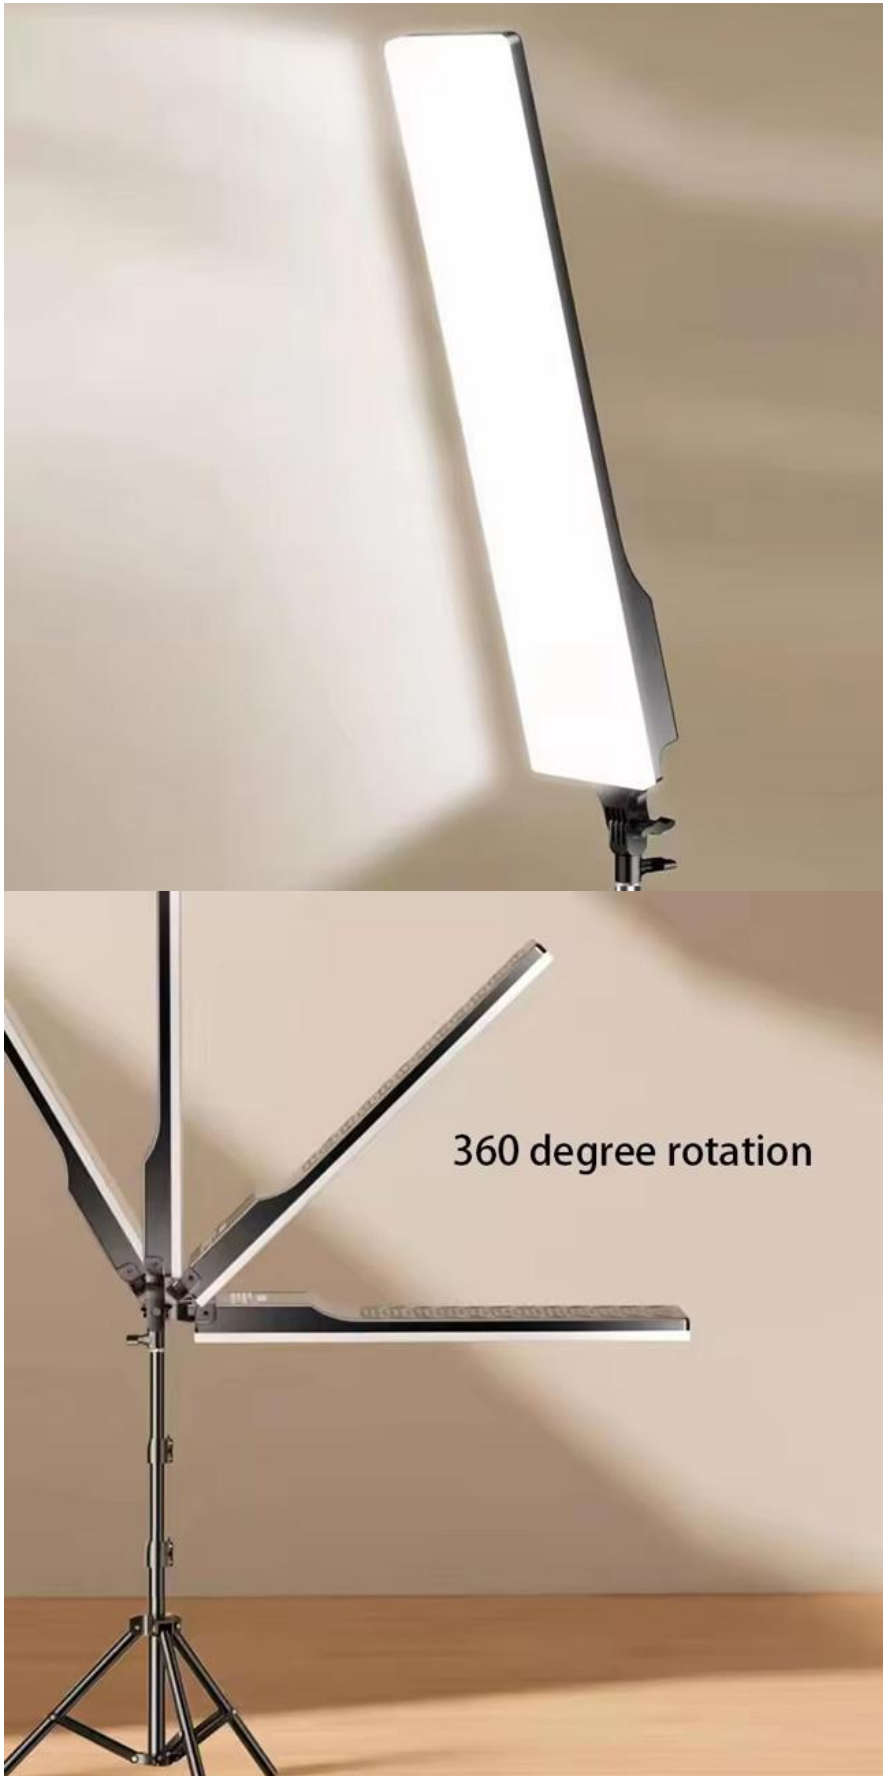

With a beam angle of 270 degrees, the LC-JX-RL100 LED fill light provides a wide, even distribution of light that can help eliminate shadows and create a more natural look. Whether you're shooting indoors or outdoors, this LED photo shoot light is a great choice for achieving professional-looking results.

One of the standout features of the LC-JX-RL100 LED fill light is its wireless control options. With both button and remote control options, you can easily adjust the angle and color temperature of the light without having to get up and make changes manually. This makes it a great choice for use in a variety of settings, from studio shoots to outdoor events.

The LC-JX-RL100 LED fill light also features angle adjustment capabilities, allowing you to adjust the positioning of the light to achieve the perfect angle for your shot. This feature is particularly helpful when shooting in tight spaces or when you need to get a specific angle for your shot.

When it comes to color temperature, the LC-JX-RL100 LED fill light offers a range of 2700K-7000K, making it a versatile choice for a

variety of lighting scenarios. And with a CRI of 95+, you can be sure that your lighting will be accurate and natural-looking. Linkop's LC-JX-RL100 LED fill light is CE/FCC/ROHS certified, ensuring that it meets the highest standards for safety and quality. The minimum order quantity for this product is 10pcs, and it comes packaged in a color box for easy storage and transport. Delivery time is 3-8 days, and payment terms are TT. With a supply ability of 300,000pcs per month, you can be sure that you'll always have access to this high-quality LED video light.
