

## 4 Pin Ip20 Led Strip Connector Waterproof IP20 10mm Width

Our Product Introduction

for more products please visit us on [ledslightstrip.com](http://ledslightstrip.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LCSD-004
- Minimum Order Quantity: 100pcs
- Price: \$0.2/Pcs
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 1000000pcs/ month

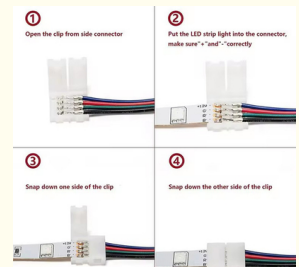

### Product Specification

- Shape: + 4 Pins
- Connection Method: Line To Strip
- Protection: IP20 (Mated)
- Compatible Led Strip Width: 10mm
- Waterproof Rating: IP20
- Item Type: LED Strip Connector
- Length: 16cm
- Pins: 4 Pins
- Highlight: **Ip20 Led Strip Connector, Waterproof Led Strip Connector, 10mm Width Led Strip Connector**

## Product Description

### 4-Pin Led With Wire To Ip20 Connector On One Side 4-Wire Soldering On The Other Side No Soldering Required

#### Product Description:

The LED strip connector has a wired to strip connection method, which means it can be easily connected to the LED strip and power supply through a simple wire connector. The length of the connector is 16cm. The four pins on the connector ensure a secure and stable connection between the LED light strip and the power supply.

This connector is made of high-quality materials to ensure durability and longevity, making it an excellent investment for all LED strip connection needs.

The LED strip connector is designed to operate within a wide temperature range of -20 °C to 60 °C, making it suitable for use in various environments. Its sturdy design and reliable performance make it highly suitable for use in residential and commercial environments.

Overall, this LED ribbon connector is an important tool for anyone who wishes to connect their LED ribbon to a power source. Its line to strip connection method, 10mm connector width, 4-pin and DC connector make it a universal and reliable choice for all LED strip connection needs. Whether you are working on a DIY project or a large-scale commercial installation, this LED strip connector is sure to provide the reliable performance and secure connection you need.

#### Features:

Product Name: led strip connector

Length: 16cm Female Connector

Strip Volts: 5V 12V 24V DC

Protection: IP20 (Mated)

Operating Temperature: -20°C To 60°C

Connection Method: Line To Strip

Keywords: Tape Light Linker, LED Flexible Strip Coupler, Connection LED Strip

#### Technical Parameters:

Attribute	Value
Item Type	LED Strip Connector
Pcb Width	8mm, 10mm
Shape	+ 4 Pins
Connection Method	Line To Strip
Waterproof Rating	IP20
Pins	4 Pins
Protection	IP20 (Mated)
Strip Volts	5V 12V 24V DC
Operating Temperature	-20°C To 60°C

#### Applications:

The Linkop LCSD-004 LED strip connector provides seamless connection between the strip and the strip or controller. The 4-pin connector ensures a secure connection, making it an ideal choice for DIY projects and professional installations. The connector is easy to install and can create custom length light strips or connect multiple light strips together.

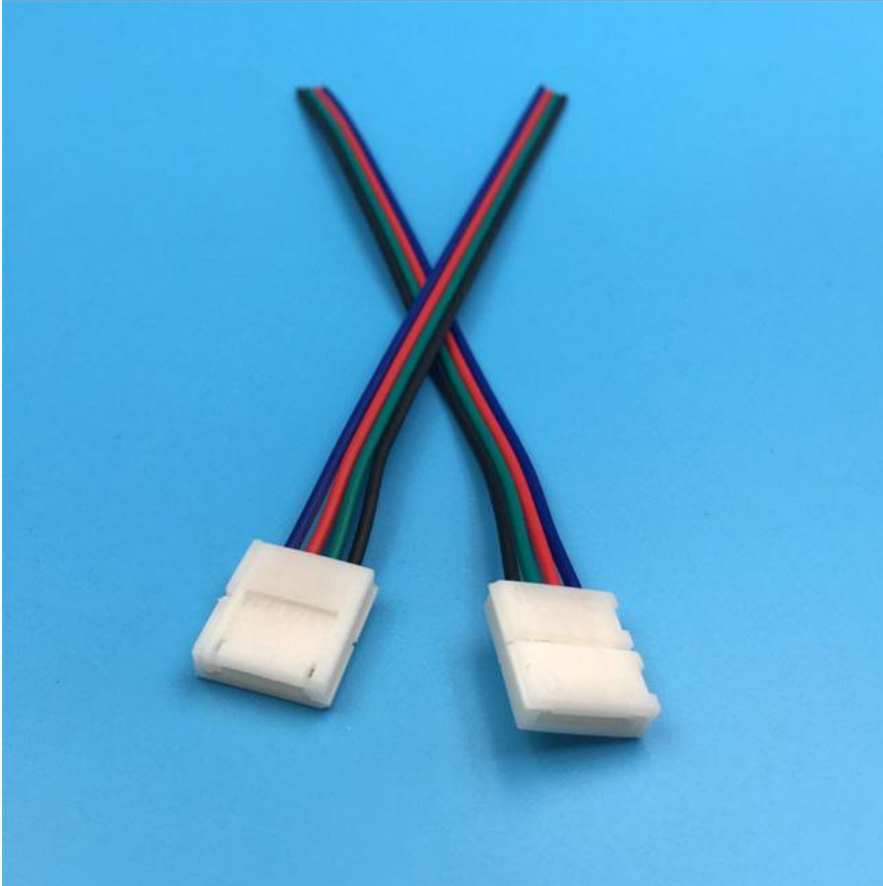

This strip light connector is manufactured in Guangdong, China and has passed CE certification. The minimum order quantity for this product is 100 pieces, which are packaged in bags. The delivery time for this product is 3-8 days, and the payment method is TT. The supply capacity is 1 million pieces per month, ensuring that you can obtain this product in a timely and cost-effective manner.

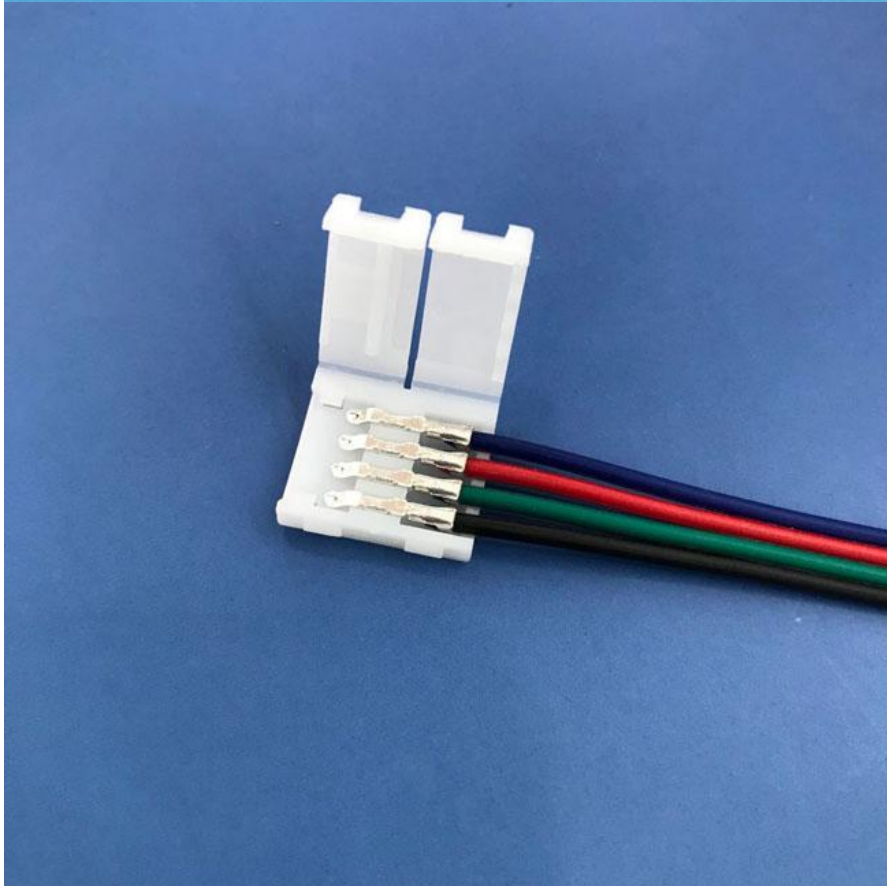

The Linkop LCSD-004 LED ribbon connector is highly suitable for a wide range of applications, including residential and commercial lighting. You can use it to add light to your kitchen, living room, bedroom, or any other space. It is also very suitable for use in retail stores, restaurants, and other commercial spaces.

Whether you are a professional electrician or a DIY enthusiast, the Linkop LCSD-004 LED strip connector is the perfect choice for your LED strip connection needs. The connector has a length of 16cm and a width of 10mm, and is compatible with various RGB LED strips.

The 4-pin connector ensures a secure connection and is easy to install.

In short, the Linkop LCSD-004 LED strip connector is an essential tool for anyone who wants to create customized lighting solutions. It is easy to use, versatile, and highly effective. Whether you want to add lighting to your home or business, this LED connector is the perfect choice.
