Product Description

Adjustable Brightness 5v 1.5w Solar Panel Led Solar Camping Light Suitable For Indoor And Outdoor Lighting

Product Description:

This LED solar camping light has two charging methods: solar input or USB input. It is equipped with a large capacity battery that can emit bright and stable light for several hours. This is the perfect camping, hiking, or just as an emergency light source at home. One of the biggest features of this product is its portability. Its design is compact and lightweight, making it easy to carry wherever you go. And there are 4 color options to meet the various needs of consumers. LED solar lights are also very versatile in terms of installation. You can place it on your desk or tabletop, or install it on a more permanent lighting fixture on the wall. It is perfect for illuminating your garden, terrace, or any other outdoor space. This product is also very environmentally friendly because it relies entirely on solar energy to operate. This is a great alternative to traditional lighting fixtures, consuming electricity and promoting carbon emissions. Overall, LED solar lights are a reliable and practical lighting solution that can meet all your indoor and outdoor lighting needs. Its durability, brightness, portability, and environmental friendliness make it a must-have for any adventurer, homeowner, or environmentalist.

It has a working voltage and output voltage of 5V, a battery capacity of 4ah, and is made of plastic. It can be installed as either a desktop or wall-mounted lamp and has a voltage of 3.7V. The input required for this lamp is 50Hz 5 Volt.

Applications:

LC-CX-LS-009 solar light is suitable for various occasions and scenarios. Whether you need outdoor activity lighting, such as camping, hiking, or picnicking, or indoor use in case of power outages or emergencies, this solar light is the ideal solution. You can easily install it on a desktop or wall mounted location for convenient use. The 4-watt power and 5V operating voltage make it efficient and powerful enough to provide sufficient lighting in any situation.

LC-CX-LS-009 solar light has only one size and four color options. With its solar panels, you can enjoy bright and reliable light without causing harm to the environment. It can also be charged quickly through a USB cable.

The Linkop LC-CX-LS-009 solar light has passed CE/FCC/ROHS certification, ensuring its compliance with high-quality standards and safe use. The minimum order quantity is 100 pieces, and the packaging details are in the color box. The delivery time for this product is 3-8 days, and the payment method is TT. With a monthly supply capacity of 300000 units, we ensure that you can use this sustainable solar light anytime, anywhere.

In summary, Linkop LC-CX-LS-009 solar lights are a sustainable lighting solution that provides reliable and efficient illumination for various occasions and scenes. Whether you need outdoor activities, emergency situations, or daily use, this solar light is the perfect choice. Start enjoying bright and sustainable lighting today without harming the environment.
