

Magnetic Wardrobe Led Motion Sensor Light 3000k Color Temperature

Our Product Introduction

for more products please visit us on ledslightstrip.com

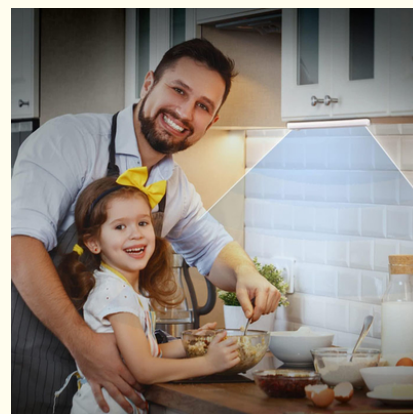

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Motion sensor cabinet light
- Certification: CE
- Model Number: LC-XQL-X35
- Minimum Order Quantity: 10pcs
- Price: \$3.8/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

Product Specification

- Dimensions: Multi-size Option
- Brightness: Adjustable
- Color Temperature: 3000K
- Light Source: LED
- Waterproof: No
- Material: ABS
- Installation Method: Magnetic Installation
- Sensor Range: Up To 10 Feet
- Highlight: Wardrobe Led Motion Sensor Light, Magnetic Led Motion Sensor Light, Led Motion Sensor Light 3000k

Product Description

Magnetic Motion Sensor Light 3000k Color Temperature Led Wardrobe Light Brightness Adjustment

Product Description:

The LED light source ensures that you get bright and efficient lighting, while the motion sensor allows for easy activation and deactivation of the light. The PIR sensor type ensures that the light is highly sensitive to motion, allowing for quick and efficient activation. This is especially useful for people who require lighting in areas that are difficult to access or hard to reach.

The light comes in multi-size options, allowing you to choose the perfect size for your needs. Whether you need a small light for a closet or a larger light for a workshop, we have you covered. The compact size of the light also makes it easy to install and move around as needed.

The USB 5V and Type-C charging options make it easy to charge the light, ensuring that you always have a reliable source of lighting. This is especially useful for people who need lighting in areas where electricity is not readily available. You can simply charge the light using your computer or a portable charger and use it wherever you need it.

Overall, our LED motion sensor light is the perfect solution for anyone who needs reliable and efficient lighting. The combination of the LED light source, motion sensor, and PIR sensor type ensures that you get the best possible lighting experience. The multi-size options and USB 5V and Type-C charging options make it easy to use and install, making it the ideal choice for all your lighting needs.

Features:

Product Name: LED motion sensor light
Color Temperature: 3000K
Sensor Type: PIR
Dimensions: Multi-size Option
Power Source: Rechargeable Lithium-ion Battery
Installation Method: Magnetic Installation
Ultra thin intelligent design
USB 5V charging
LED cabinet light

Technical Parameters:

Dimensions	Multi-size Option
Color Temperature	3000K
Sensor Angle	120 Degrees
Power Source	Rechargeable Lithium-ion Battery (Large capacity battery)
Installation Method	Magnetic Installation (Ultra thin intelligent)
Application scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Brightness	Adjustable
Waterproof	No
Light Source	LED
Material	ABS

Applications:

Manufactured in Guangdong, China, this product has received CE certification and has a minimum order quantity of 10pcs. It is packaged in a color box and can be delivered within 3-8 days upon payment via TT. The supply ability of this product is 200000pcs/month, making it readily available for customers.

The Motion Sensor Cabinet Light LC-XQL-X35 is equipped with PIR sensor technology, enabling it to detect human movements accurately. It is not waterproof, so it is recommended to use it in areas with minimal exposure to water.

This product is perfect for those who want to save energy and electricity bills. Its automatic light feature ensures that the light is only turned on when someone is around, making it an efficient way to light up spaces. It is also perfect for those who need a light source that is easy to install and does not require any wiring.

Overall, the Motion Sensor Cabinet Light LC-XQL-X35 is a reliable and convenient product that can be used in various scenarios. Its human body sensing technology, USB 5V power source, and automatic light feature make it an attractive choice for those who want to save energy and have a hassle-free lighting solution.

Use In Multiple Scenarios

SMALL OF PRODUCT

Can de Mount it on any clean,dry,and flat surface.
