

## Compact ABS LED Motion Sensor Security Light With Adjustable Color Temperature

Our Product Introduction

for more products please visit us on [ledslightstrip.com](http://ledslightstrip.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Motion sensor cabinet light
- Certification: CE
- Model Number: LC-XQL-X25
- Minimum Order Quantity: 10pcs
- Price: \$3.8/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

### Product Specification

- Type: Motion Sensor Light
- Sensor Type: PIR
- Size: Multi-specification
- Sensor Range: Up To 10 Feet
- Dimensions: Multi-size Option
- Color Temperature: 3000K/4000K/7000K
- Material: ABS
- Waterproof: No
- Highlight: Compact LED Motion Sensor Security Light, Adjustable LED Motion Sensor Security Light, ABS LED Motion Sensor Security Light

## Product Description

### Compact LED Motion Sensor Security Light with Adjustable Color Temperature

#### Product Description:

One of the key features of this LED motion sensor light is its rechargeable lithium-ion battery. This makes it easy to use and convenient to charge, ensuring that you always have a reliable source of light when you need it. Additionally, the light is equipped with a PIR sensor, which is designed to detect motion and movement within the room. This allows the light to turn on automatically when someone enters the space, making it an ideal choice for areas such as hallways, closets, and other enclosed spaces.

The brightness of the LED motion sensor light is adjustable, which means that you can customize it to suit your needs and preferences. Whether you need a bright light for working or studying, or a softer light for relaxing or sleeping, this light can provide just the right amount of illumination. The light source is also LED, which provides bright and energy-efficient lighting that is long-lasting and durable.

The LED motion sensor light is available in a range of different sizes and specifications, making it easy to find the right one for your needs. Whether you need a small and compact light for a tight space, or a larger and more powerful light for a larger room or workspace, there is a size and specification that will work for you.

Another key feature of this LED motion sensor light is its Type-C charging capability. This makes it easy to charge the battery quickly and efficiently, so that you can use the light whenever you need it. Additionally, the light can be used as an LED cabinet light, providing bright and focused lighting for cabinets, shelves, and other storage spaces.

In summary, the LED motion sensor light is a versatile and practical lighting solution that provides bright and energy-efficient illumination, while also being easy to use and adjust. With its rechargeable lithium-ion battery, PIR sensor, adjustable brightness, LED light source, and Type-C charging capability, this light is an ideal choice for homes, offices, and other indoor spaces.

#### Features:

Product Name: LED motion sensor light

Sensor Angle: 120 Degrees

Sensor Range: Up To 10 Feet

Waterproof: No

Color Temperature: 3000K/4000K/7000K

Installation Method: Magnetic Installation

Type-C charging

Magnetic attraction without wiring

Automatic light

#### Technical Parameters:

Technical Parameters	Description
Type	Motion Sensor Light
Sensor Type	PIR
Waterproof	No
Size	Multi-specification
Application Scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Brightness Control	Adjustable
Material	ABS
Light Source	LED
Sensor Angle	120 Degrees
Dimensions	Multi-size Option
Additional Features	Brightness control, Automatic light, Brightness control

#### Applications:

The Motion Sensor Cabinet Light is an LED light source, providing bright and efficient lighting for your cabinets, closets, and other small spaces. The size of the light comes in multi-specifications, making it easy to find the right fit for your needs. The material used is ABS,

ensuring durability and longevity of use.

One of the most convenient features of this product is its automatic light function, which senses motion within 10 feet and turns on the light. This makes it perfect for use in those hard-to-reach areas, such as closets or cabinets. The light also has a brightness control feature, allowing you to adjust the lighting to your preference.

The Motion Sensor Cabinet Light is also easy to charge, with a Type-C charging port, ensuring that you can always keep it powered up and ready to use. It is ideal for use in various scenarios, such as in your home, office, or even in your car.

This product comes in color box packaging, with a minimum order quantity of 10pcs, and delivery time of 3-8 days. Payment terms are TT, and the supply ability is 200000pcs/month.

In summary, the Motion Sensor Cabinet Light is a versatile and efficient product, perfect for use in a variety of occasions and scenarios. With its automatic light function, brightness control, and easy charging capabilities, it is a must-have for your lighting needs.
