

Adjustable Brightness Cabinet Motion Sensor LED Light With 120° Detection

Our Product Introduction

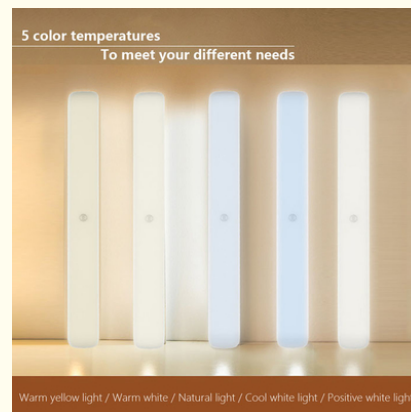

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Motion sensor cabinet light
- Certification: CE
- Model Number: LC-XQL-R40
- Minimum Order Quantity: 10pcs
- Price: \$10.8/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

Product Specification

- Light Source: LED
- Material: ABS
- Waterproof: No
- Sensor Angle: 120 Degrees
- Color Temperature: 2700K/3000K/4000K/6000K/7000K
- Dimensions: Multi-size Option
- Brightness: Adjustable
- Sensor Range: Up To 10 Feet
- Highlight: **Cabinet Motion Sensor LED Light,
120 Detection Motion Sensor LED Light,
Adjustable Brightness Motion Sensor LED Light**

Product Description

Adjustable Brightness Long Cabinet Light Motion Sensor LED Light With 120° Detection

Product Description:

The motion sensor technology allows the light to be activated when it detects movement within its range, which can be up to 10 feet. This makes it perfect for use in areas where you need a quick burst of light, such as when you're rummaging through a drawer or getting up in the middle of the night. The sensor is reliable and will only turn on when it detects motion, helping to save battery life.

The LED light source provides a bright and energy-efficient light, which is perfect for use in areas where you need a lot of light, such as when you're working at a desk or preparing food in the kitchen. The LED light source is also long-lasting and won't need to be replaced often, which helps to save money in the long run.

The power source for this LED motion sensor light is a rechargeable lithium-ion battery, which is included with the product. The battery can be charged using the Type-C charging cable, which is also included with the product. This makes it easy to charge the light, and you won't need to worry about replacing the batteries often.

In summary, this LED motion sensor light is perfect for anyone who needs a reliable and energy-efficient light source that can be used in a range of scenarios. With its ultra-thin design and intelligent motion sensor technology, this product is a must-have for anyone who wants to make their life a little bit easier.

Features:

Product Name: LED motion sensor light

Application scenario: Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside

Sensor Type: PIR

Material: ABS

Brightness: Adjustable

Dimensions: Multi-size Option

Human body sensing

Ultra thin intelligent

Magnetic attraction without wiring

Technical Parameters:

Color Temperature	2700K/3000K/4000K/6000K/7000K
Light Source	LED
Sensor Type	PIR
Power Source	Rechargeable Lithium-ion Battery
Waterproof	No
Application scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Sensor Range	Up To 10 Feet
Sensor Angle	120 Degrees
Size	Multi-specification
Brightness	Adjustable

Applications:

The Motion Sensor Cabinet Light has an adjustable brightness feature, which means that you can control its brightness according to your needs. It also has a five-color dimming option with color temperatures of 2700K,3000K,4000K,6000K and 7000K. This feature allows you to set the mood of your room, depending on your preference.
