Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Motion sensor cabinet light
- Certification: CE
- Model Number: LC-XQL-R30
- Minimum Order Quantity: 10pcs
- Price: \$9.2/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

Product Specification

- Sensor Type: PIR
- Light Source: LED
- Waterproof: No
- Installation Method: Magnetic Installation
- Color Temperature: 2700K/3000K/4000K/6000K/7000K
- Sensor Angle: 120 Degrees
- Brightness: Adjustable
- Size: Multi-specification
- Highlight: 5v LED Motion Sensor Light,
Color Dimming LED Motion Sensor Light,
5v LED Cabinet Light

Product Description

5v Cabinet Light Motion Sensor Light With Adjustable Brightness And Color Dimming

Product Description:

The motion sensor light boasts a sensor range of up to 10 feet, ensuring that the light turns on whenever there is movement in its vicinity. This feature makes it ideal for use in hallways, closets, garages, and other areas where you need instant illumination. No more fumbling for light switches in the dark - this light has got you covered.

The LED light source of this motion sensor light provides bright and long-lasting illumination. You can choose from five color temperature options - 2700K, 3000K, 4000K, 6000K and 7000K - to create the perfect ambiance for your space. Whether you want warm and cozy lighting or bright and white light, this motion sensor light has got you covered.

The sensor type used in this light is PIR, which is known for its reliability and efficiency. This ensures that the light detects motion accurately and turns on instantly, without any delays. You can trust this motion sensor light to provide consistent and reliable performance, day in and day out.

Installation of this motion sensor light is a breeze, thanks to its magnetic installation feature. You can easily attach the light to any metal surface, such as your fridge, cabinets, or walls, without the need for any wiring or drilling. This feature makes it an ideal option for those who want a quick and easy lighting solution.

In conclusion, if you're looking for a motion sensor light that is energy-efficient, reliable, and easy to install, then our LED motion sensor light is the perfect choice for you. With its automatic light detection, multiple size options, and magnetic installation, this light is bound to make your life easier and brighter.

Features:

Product Name: LED motion sensor light

Light Source: LED

Brightness: Adjustable with Brightness control

Size: Multi-specification and Ultra thin intelligent

Installation Method: Magnetic Installation

Waterproof: No

Charging: Type-C charging

Technical Parameters:

Product Attribute	Value
Light Source	LED
Dimensions	Multi-size Option
Power Source	Rechargeable Lithium-ion Battery
Material	ABS
Sensor Type	PIR
Sensor Angle	120 Degrees
Application scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Size	Multi-specification
Color Temperature	2700K/3000K/4000K/6000K/7000K
Sensor Range	Up To 10 Feet
Product Name	LED cabinet light
Special Feature	Motion sensor, Three color dimming

Applications:

The Motion Sensor Cabinet Light (Model Number: LC-XQL-R30) is a high-quality LED light designed for various occasions and scenarios. It is manufactured in Guangdong, China, and has acquired the CE certification. The product has a minimum order quantity of 10pcs, and it is packaged in a color box. The delivery time is between 3-8 days, and payment terms are TT. The product has a supply ability of 200000pcs/month, and it is available in various dimensions and sizes.

The Motion Sensor Cabinet Light is ideal for use in various scenarios. It is perfect for lighting up dark cabinets, wardrobes, and closets. The product is equipped with a motion sensor that detects movement within the sensor angle of 120 degrees. Its magnetic installation method makes it easy to install without the need for drilling. The product can be installed in various places, such as under cabinets, stairs, and in attics.

The Motion Sensor Cabinet Light has various features that make it stand out. It has a brightness control feature that allows users to adjust the brightness according to their needs. The product is energy efficient, and it consumes less energy than traditional lighting sources. It is also eco-friendly and does not emit harmful substances such as lead and mercury.

The Motion Sensor Cabinet Light is suitable for use in various occasions. It is perfect for use in homes, offices, and hotels. The product is also suitable for use in outdoor spaces such as patios and porches. However, it is important to note that the product is not waterproof, and therefore, it should not be exposed to water.

In conclusion, the Motion Sensor Cabinet Light is a high-quality LED light that is suitable for various occasions and scenarios. It is equipped with a motion sensor, has a brightness control feature, and is energy efficient. The product is easy to install and is suitable for use in various places. It is an ideal lighting solution for homes, offices, and hotels.
