Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Motion sensor cabinet light
- Certification: CE
- Model Number: LC-XQL-P28
- Minimum Order Quantity: 10pcs
- Price: \$5.7/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

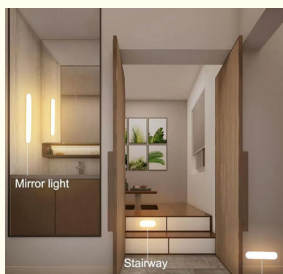

Product Specification

- Dimensions: Multi-size Option
- Brightness: Adjustable
- Sensor Range: Up To 10 Feet
- Size: Multi-specification
- Light Source: LED
- Application Scenario: Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
- Power Source: Rechargeable Lithium-ion Battery
- Waterproof: No
- Highlight: **Led Pir Motion Sensor Light,
Led Motion Sensor Light 2700K,
7000K Led Motion Sensor Light**

Product Description

Five Color Temperature Adjustable Brightness Led Pir Motion Sensor Light

Product Description:

The LED light source offers a bright and energy-efficient illumination that is perfect for a variety of settings. Whether you need a wardrobe light, a night light, or an automatic light for your garage or hallway, this product is the perfect choice.

The motion sensor feature ensures that the light turns on automatically when it detects human body sensing. This makes it a great option for those who need a reliable and convenient light source that is easy to use and install.

The installation process is quick and easy thanks to the magnetic installation feature. Simply attach the light to any magnetic surface and you're done! This makes it perfect for those who want a hassle-free installation process that doesn't require any special tools or equipment.

The rechargeable lithium-ion battery offers a reliable and long-lasting power source that ensures that the light stays on when you need it most. This makes it perfect for those who want a light source that is always ready when they need it.

While this product is not waterproof, it is perfect for indoor use and is a great option for those who need a reliable and convenient light source that is easy to use and install.

In summary, our LED motion sensor light is the perfect solution for your lighting needs. With its bright and energy-efficient LED light source, motion sensor feature, and magnetic installation method, this product is a great option for those who need a wardrobe light, an automatic light, or a night light. So why wait? Order yours today and start enjoying the convenience and reliability of this amazing product!

Features:

Product Name: LED motion sensor light

Light Source: LED

Color Temperature: 2700K/3000K/4000K/6000K/7000K

Material: ABS

Dimensions: Multi-size Option

Sensor Type: PIR

Human body sensing

Brightness control

Large capacity battery

Technical Parameters:

Brightness	Adjustable
Material	ABS
Installation Method	Magnetic Installation
Power Source	Rechargeable Lithium-ion Battery
Type	Motion Sensor Light
Sensor Angle	120 Degrees
Color Temperature	2700K/3000K/4000K/6000K/7000K
Application scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Dimensions	Multi-size Option
Sensor Type	PIR

Large capacity battery, Motion sensor

Applications:

One of the standout features of this LED cabinet light is its motion sensor, which provides convenience and energy efficiency. The sensor detects movement within its range and automatically turns on the light, making it an ideal choice for use in areas where hands-free lighting is needed. This product also comes with brightness control, allowing users to adjust the light intensity according to their preferences.

The Motion Sensor Cabinet Light is manufactured in Guangdong, China, and is CE certified. It has a minimum order quantity of 10 pieces and comes packaged in a color box. The delivery time is between 3-8 days, and payment terms are TT. The supply ability is 200000 pieces per month, ensuring that the product is readily available when needed.

One of the most popular application scenarios for this product is as a wardrobe light. The motion sensor ensures that the light turns on

automatically when the wardrobe is opened, providing hands-free lighting and making it easy to find clothes and accessories. The brightness control feature also allows users to adjust the light intensity based on their needs. The Motion Sensor Cabinet Light is also ideal for use in display cases, where it can help highlight valuable items and create an attractive visual display. It can also be used in cabinets and desks to provide additional lighting and improve visibility. Stairs and bedside tables are other areas where this product can be used to provide hands-free lighting and enhance safety. The Motion Sensor Cabinet Light is powered by a rechargeable lithium-ion battery, making it easy to install and use without the need for complicated wiring. With its versatility and convenience, this LED cabinet light is an excellent choice for anyone looking for practical and energy-efficient lighting solutions.
