Product Description

Easy To Install Dimmable Motion Sensor Led Cabinet Light With Three Color Dimming

Product Description:

Our LED motion sensor light is designed with convenience in mind. With its rechargeable lithium-ion battery, you never have to worry about constantly replacing batteries. The Type-C charging feature also ensures that your light is charged quickly and efficiently, getting you back to using it again in no time.

The LED light source provides bright and energy-efficient lighting, making it perfect for use in any room in your home or office. Plus, with its motion sensor feature, you don't have to worry about turning the light on or off manually. The light will automatically turn on when motion is detected and turn off after a set time, saving you energy and money on your electricity bill.

Installation is a breeze with our LED motion sensor light. The magnetic attraction feature allows for easy installation without any wiring needed. Simply attach the light to any metal surface and you're good to go.

Our LED motion sensor light is not only practical but also adds a touch of style to any room. Its sleek and modern design will complement any decor and provide the perfect amount of lighting for any task.

In conclusion, our LED motion sensor light is the perfect addition to any home or office. With its Type-C charging, magnetic attraction feature, and energy-efficient LED light source, it provides convenience, style, and functionality all in one. Order yours today and start enjoying the benefits of our LED motion sensor light!

Features:

Product Name: LED motion sensor light

Color Temperature: 3000K/4500K/6000K

Waterproof: No

Brightness: Adjustable

Power Source: Rechargeable Lithium-ion Battery

Type: Motion Sensor Light

Brightness control

Automatic light

Type-C charging

Technical Parameters:

Input Voltage	5V
Sensor Range	Up To 10 Feet
Waterproof	No
Light Source	LED
Power Source	Rechargeable Lithium-ion Battery
Brightness	Adjustable
Size	Multi-specification
Installation Method	Magnetic Attraction Without Wiring
Application Scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Sensor Type	PIR
Power Input	USB 5V
Additional Features	Magnetic Attraction Without Wiring

Applications:

The Motion Sensor Cabinet Light LCSD-30CM is a versatile lighting solution that can be used in a variety of occasions and scenarios. With its Type-C charging, it is convenient to use and can be easily recharged when necessary. This wardrobe light is designed to be placed in cabinets, wardrobes, and other small spaces that need illumination.

One of the most common applications for the Motion Sensor Cabinet Light is in the home. It can be installed in cabinets in the kitchen, bathroom, or bedroom to provide additional lighting and make it easier to find items. The motion sensor feature ensures that the light

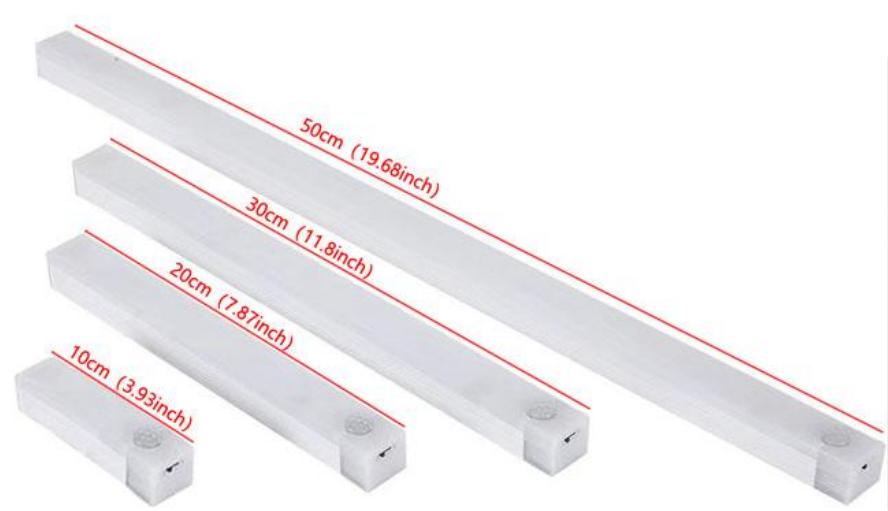

turns on when you open the cabinet and turns off when you close it, making it energy-efficient. The Motion Sensor Cabinet Light is also useful in commercial settings. It can be installed in store displays, jewelry cases, and other retail spaces to highlight products and create an inviting atmosphere. The adjustable brightness and color temperature make it easy to customize the lighting to suit your needs.

If you're looking for a lighting solution for your outdoor space, the Motion Sensor Cabinet Light can be used as an outdoor wall light. Its durable ABS material is weather-resistant, making it suitable for use in all kinds of weather conditions. The motion sensor feature ensures that the light turns on when it detects movement, providing added security and peace of mind.

The Motion Sensor Cabinet Light is an ideal choice for anyone who wants a reliable, energy-efficient lighting solution. Its multi-size options and multi-specifications make it easy to customize to your needs, and its CE certification ensures that it meets high standards of quality and safety. With a minimum order quantity of just 10pcs and packaging details in a color box, it is easy to order and receive. Delivery time is quick, with 3-8 days and payment options include TT. The supply ability of 200000pcs/month ensures that it is widely available and in-demand.
