

Up To 10 Feet Range Led Motion Sensor Light For Smart Illumination

Our Product Introduction

for more products please visit us on ledslightstrip.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Motion sensor cabinet light
- Certification: CE
- Model Number: LC-XQL-
- Minimum Order Quantity: 10pcs
- Price: \$8.8/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 200000pcs/ month

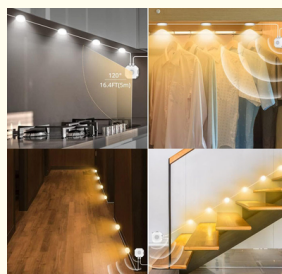

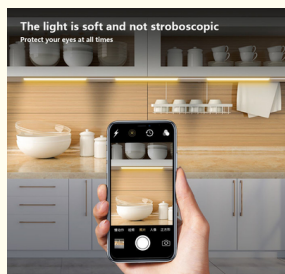

Product Specification

- Sensor Angle: 120 Degrees
- Material: ABS
- Light Source: LED
- Sensor Range: Up To 10 Feet
- Brightness: Adjustable
- Waterproof: No
- Lighting Duration: Tunable
- Dimensions: Multi-size Option
- Highlight: Illumination Led Motion Sensor Light, 10 Feet Range Motion Sensor Light, Smart Illumination Motion Sensor Light

Product Description

Up To 10 Feet Range Led Motion Sensor Light For Smart Illumination

Product Description:

The lamp bead type used in this product is 2835, which is a type of LED chip that is known for its high brightness and energy efficiency. The brightness of this light is adjustable, which means you can customize the lighting to your specific needs. Additionally, this light features three color dimming, which allows you to choose from warm white, natural white, and cool white light. The LED motion sensor light is equipped with human body sensing technology, which means that the light will turn on automatically when it detects motion within its sensor range. The sensor range for this light is up to 10 feet, making it ideal for use in hallways, closets, and other small spaces where you need a little extra light. Another great feature of this motion sensor light is its multi-size option. This means that you can choose from a variety of sizes to fit your specific needs. Whether you need a small light for a wardrobe or a larger light for a hallway, this product has you covered. This LED motion sensor light is perfect for use as a wardrobe light, as it provides just the right amount of light to see your clothes without being too bright. The human body sensing technology also makes it easy to use, as you don't need to fumble around for a switch in the dark. In conclusion, the LED motion sensor light is a versatile and practical lighting solution that is perfect for use in a variety of spaces. With its adjustable brightness, three color dimming, human body sensing technology, and multi-size options, this product is sure to meet all of your lighting needs.

Features:

Product Name: LED motion sensor light
Size: Multi-specification
Dimensions: Multi-size Option
Material: Aluminum
Lamp bead type: 2835
Brightness: ABS
Brightness control: Yes
Certification: CE
Type: LED cabinet light

Technical Parameters:

Product Attribute	Value
Type	Motion Sensor Light
Application Scenario	Wardrobe/ Display Case/ Cabinet/ Desk/ Stairs/ Bedside
Sensor Range	Up To 10 Feet
Sensor Type	PIR
Power Source	Rechargeable Lithium-ion Battery
Installation Method	Adhesive Installation
Light Source	LED
Color Temperature	3500K/4500K/6500K
Input Voltage	5V
Dimensions	Multi-size Option
Additional Features	Ultra thin intelligent, Motion sensor, Three color dimming

Applications:

The LED light source in the Motion Sensor Cabinet Light comes in multiple color temperatures of 3500K, 4500K, and 6500K. The sensor range is up to 10 feet, making it perfect for various application scenarios such as the wardrobe, display case, cabinet, desk, stairs, and bedside. The size of the Motion Sensor Cabinet Light comes in multi-specifications, making it easy to fit into any space.

The Motion Sensor Cabinet Light comes with brightness control, allowing users to adjust the brightness according to their preference. This feature makes it perfect for people who prefer dimmer lights or those who need brighter lights for specific tasks. This product has a 5V USB power supply and is also equipped with a US standard plug, which users can use according to their own needs.

Under Cabinet LED Lights

3-Color Mode

- Cold White
- Normal White
- Warm White

Timing adjustable

- 1 38s
- 2 75s
- 3 150s
- 4 300s

Auto off within 38/75/150/300 seconds after leaving

Installation Instructions

1.Fixed motion sensor

2.Tear the sticker

3.Adjust distance

4.Power on

5.Connect extension cord
