Product Description

12v Single Color Soft Light Strip With Customizable Silicone Led Neon Light 8*16mm Diy Project

Product Description:

The power consumption of this LED neon light rope is 8W/m, providing bright and vibrant lighting. Its 120 degree wide viewing angle ensures even distribution of light and covers a larger surface area.

This single color neon light product has an input voltage of 12V and up to 10 color options to adapt to different environments and DIY projects.

Our 12V 8 * 16 LED neon light cord is a great choice for those looking for a compact and efficient lighting solution. It is easy to install and can be shaped to fit any space, making it the perfect choice for residential and commercial environments.

Overall, our LED neon light products are a high-quality, energy-efficient, and durable lighting solution suitable for any occasion.

Features:
