Product Description

Multicolor Ip67 Cuttable Neon Led Light Addressable Led Neon Rope Roll For Commercial Decoration

Product Description:

With a power of 10W/m, this addressable LED neon light cord produces a bright and vibrant light display that is sure to leave a deep impression on people. The 12V 5 * 12 configuration ensures long-lasting and energy-efficient performance, making it an ideal choice for those looking for eco-friendly lighting solutions.

Whether you want to add some style to your home decor or create a unique lighting display for your business, this addressable neon light can provide it. The IP67 rating ensures that this LED neon light is waterproof and dustproof, suitable for use in various environments.

The flexible design of this neon light allows you to bend and shape the string light to fit any space or surface. The 25mm cuttable unit allows you to customize the length of the rope lamp to meet your specific needs.

Overall, our addressable LED neon cord lights are a versatile and practical lighting solution, perfect for any indoor or outdoor application. With its energy-saving and long-lasting performance, this neon light is a great investment that will provide years of reliable and stunning lighting.

Power	10W/m

Applications:

This product is made of high-quality silicone material, which gives it durability and flexibility. It can provide a striking visual impact on multi-color neon lights, making it perfect for creating eye-catching decorations and designs. It is also cuttable, allowing customization and flexible installation.

LED neon light products are suitable for various occasions and scenarios, including:

Commercial installations: The product can be used to create signage, displays, and decorations for shops, restaurants, bars, and other commercial establishments. It is an excellent way to attract attention and increase foot traffic.

Home decor: The product can be used to create ambient lighting in bedrooms, living rooms, and other living spaces. Its flexibility makes it perfect for creating unique designs and shapes that complement any interior design style.

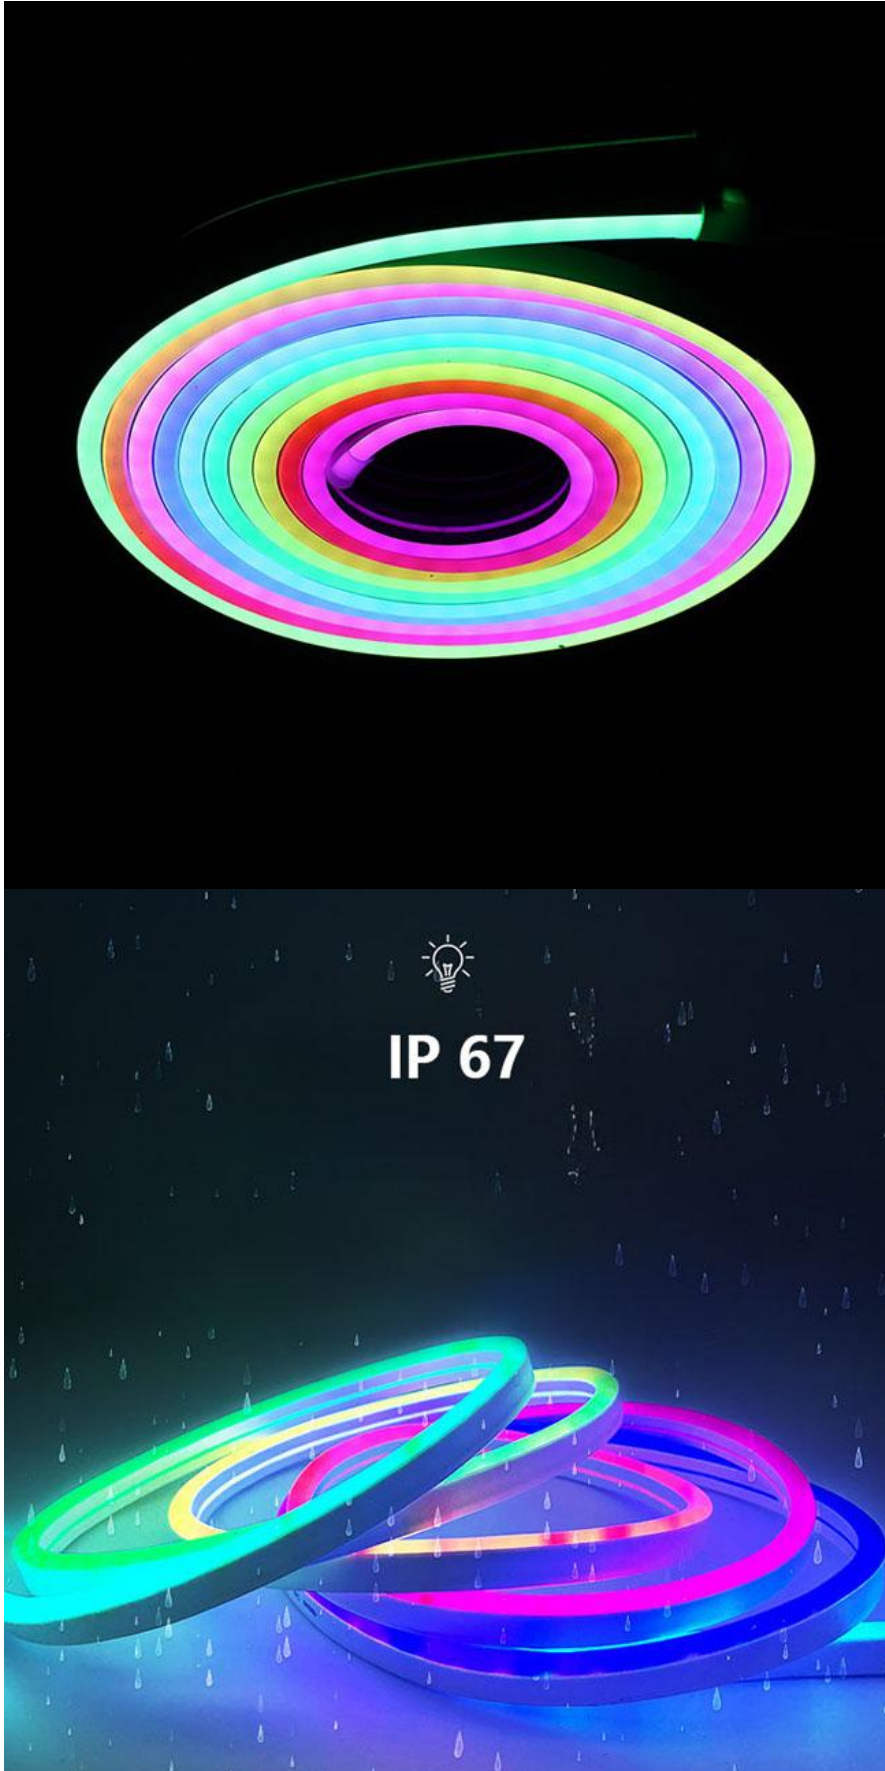

Event decorations: The product is perfect for weddings, parties, and other events, where it can be used to create stunning backdrops,

table centerpieces, and more.

Automotive lighting: The product can be used to add accent lighting to cars, motorcycles, and other vehicles. Its 12V 6*12 input voltage means it can be easily installed in a car's interior, providing a unique visual experience.

Linkop LED Neon light product is CE-certified, ensuring its quality and safety. The minimum order quantity is 10 meters, and the product is packaged in a bag for easy transport. Delivery time is 3-8 days, and payment terms are TT. The product has a supply ability of 200000 meters/month, ensuring that there is always stock available for customers.

Finally, the DIY feature of the product allows for easy installation and customization. Customers can easily cut and connect the product to fit their specific needs and preferences. With its versatility, durability, and ease of use, the LED Neon light product from Linkop is an excellent lighting solution for anyone looking to create stunning visual displays.
