Product Description

Multi Color Led Neon Light Strip Addressable Pixel Light Strip 5v Rgb Neon Light 7 * 15

Product Description:

The LED Neon light is a cuttable unit that can be easily customized to fit any space. With a cutting unit of 25mm, users can easily adjust the length of the lighting strip to suit their specific needs. This feature makes it an ideal choice for those who need a flexible neon light solution that can be customized to their unique requirements.

Another key feature of the LED Neon light product is its dimmable capabilities. This feature allows users to adjust the brightness of the light to their desired level, making it an ideal choice for those who need a lighting solution that can be adjusted to suit their specific needs. The product is compatible with a range of dimming controllers, making it easy for users to adjust the brightness of the light as needed.

The LED Neon light product is available in two different specifications, 6*12 and 7*15. The 6*12 specification is ideal for those who need a more compact lighting solution, while the 7*15 specification is ideal for those who need a brighter and more vibrant lighting solution. Both specifications offer a high-quality and long-lasting lighting solution that is sure to meet the needs of users.

The LED Neon light product is designed to use LED light sources, which offer a range of benefits over traditional lighting solutions. LED lights are more energy-efficient and longer-lasting than traditional lighting solutions, making them an ideal choice for those who want to save energy and reduce their carbon footprint. Additionally, LED lights are more durable and resistant to damage, making them a more reliable choice for long-term use.

The LED Neon light product is an excellent choice for those who need a flexible and customizable lighting solution. The product is available in a range of specifications and is compatible with a range of dimming controllers, making it easy to adjust the brightness of the light to suit your specific needs. Whether you need a compact and subtle lighting solution or a bright and vibrant pixel neon lights, this product is sure to meet your needs.

Applications:

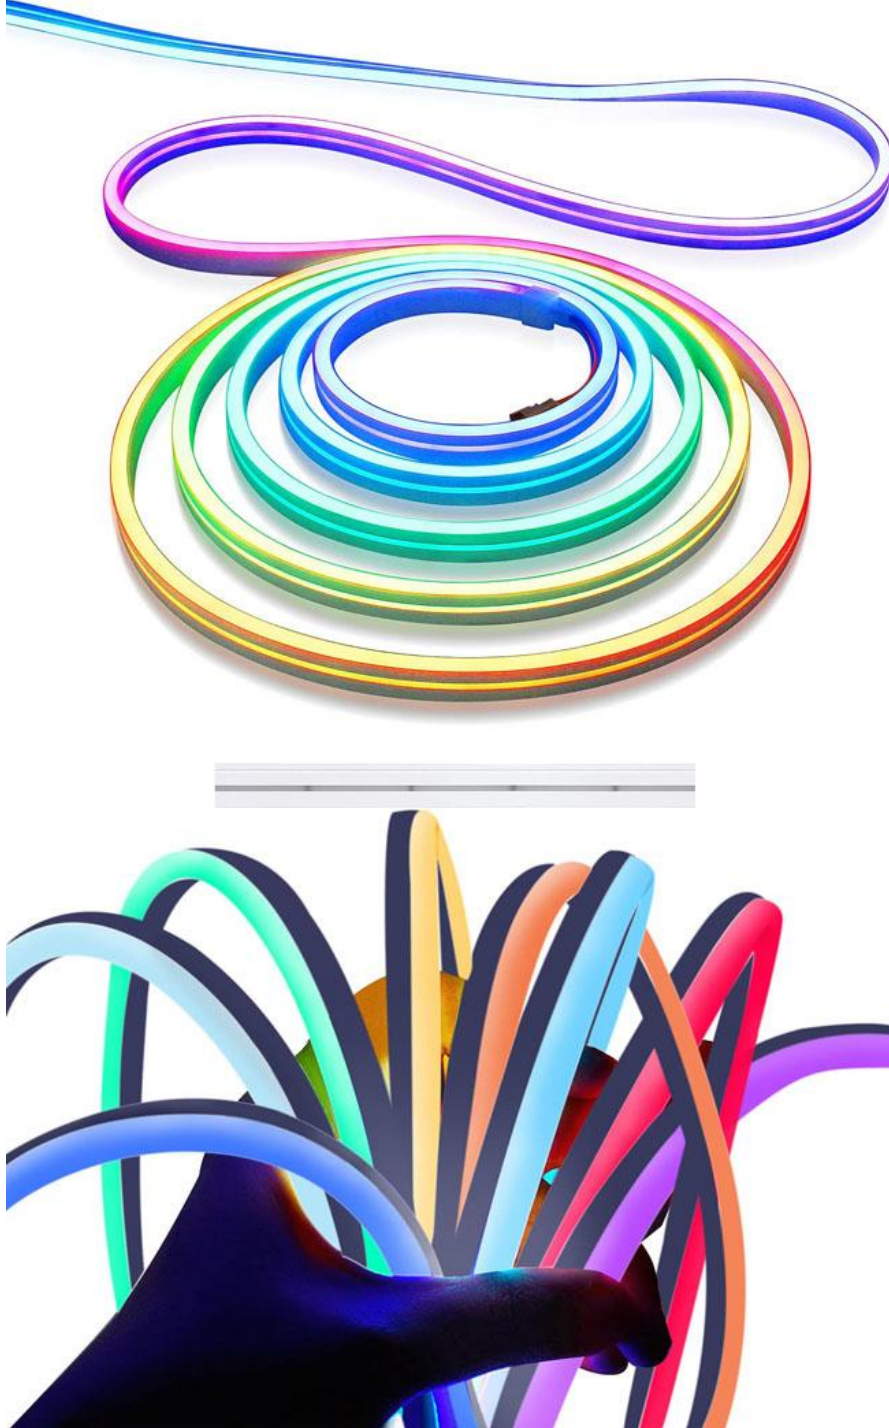

Thanks to its flexible design, the LED Neon light can be easily shaped and molded to fit any space or design. This makes it ideal for creating custom neon signs or accent lighting in a variety of settings, including bars, restaurants, retail stores, and more. One great application for this product is in creating attention-grabbing LED Neon signs for your business. With its bright and vibrant

colors, the LED Neon light is sure to attract customers' attention and help you stand out from the competition. You can use it to create custom signs that showcase your business's name, logo, or other branding elements.

Another great use for the LED Neon light is as accent lighting in your home or office. Whether you're looking to add a pop of color to a room or create a cozy and inviting atmosphere, the flexible neon light can be used to create a wide range of lighting effects. You can use it to create a neon art piece or use it as under-cabinet lighting in your kitchen or bathroom.

The LED Neon light is also a great choice for event planners and party decorators. Its flexible design and bright colors make it perfect for creating custom lighting effects and decorations for weddings, birthday parties, and other special events. You can use it to create unique centerpieces, backdrops, and other decor elements that will help make your event truly memorable.

With its CE certification and a minimum order quantity of just 50 meters, the LED Neon light is a high-quality and affordable choice for businesses and individuals alike. It comes packaged in a bag and can be delivered in just 3-8 days. Payment terms are TT, and the product has a supply ability of 200000meters/month. Thanks to its cuttable design, you can easily customize the length of the LED Neon light to fit your specific needs.
