Product Description

Led Neon Light Tube 12w/M Led Neon Ip67 Addressable Led Strip Flexible Scalable

Product Description:

Our LED Neon rope is perfect for DIY enthusiasts, allowing you to customize your space to your liking. The 120-degree viewing angle ensures that the light is evenly spread, creating a seamless and professional finish.

The 6*12/7*15 specification ensures that the product is versatile and can be used in a variety of settings. Whether you are looking to add some ambiance to your restaurant, bar, or home, our Addressable neon lights will create a unique and striking feature.

Our LED Neon rope runs on 12V, ensuring that it is energy-efficient and cost-effective. The low voltage also ensures that it is safe to use around children and pets, giving you peace of mind.

Overall, our LED Neon rope is the perfect addition to any space, adding some personality and style while remaining energy-efficient and safe to use. With its waterproof design and 120-degree viewing angle, this product is perfect for both indoor and outdoor use. So why not add some life to your space with our high-quality LED Neon rope?

This LED Neon light set is waterproof and can be used to create a stunning LED Neon sign.

Applications:

One popular application for the LED Neon light product is for use in commercial lighting. Restaurants, bars, and retail stores often use neon lights to create an eye-catching and inviting atmosphere. The multi-color option of the LC-JY-5050-72D is perfect for creating a unique and memorable aesthetic in any commercial space.

Another great use for the LED Neon light product is for home decor. The DIY option allows for creative customization, making it an excellent choice for those who want to add a personal touch to their living space. The silicone material ensures that the product is both safe and long-lasting, making it a smart investment for any homeowner.

Outdoor events such as weddings, festivals, and parties are also perfect occasions for the LED Neon light product. The waterproof and flexible design makes it easy to install and use in a variety of outdoor settings. The multi-color option can be used to create a fun and festive atmosphere, while the durability of the silicone material ensures that the product can withstand the wear and tear of outdoor use. The LC-JY-5050-72D LED Neon light product is CE certified, ensuring that it meets the highest safety and quality standards. The minimum order quantity is 50 meters, making it an excellent choice for both large-scale commercial projects and smaller DIY home projects. The product comes packaged in a bag and has a delivery time of 3-8 days, with payment terms of TT. With a supply ability of

200000meters/month, this product is readily available for all your lighting needs.
