Product Description

120 Leds 5050 Rgb Flex Led Strip Dc12v 50 000 Hours Durability

Product Description:

The LED strip is made of high-quality PCB material, ensuring durability and longevity. The 10mm size is suitable for any space, providing just the right amount of light without being too overwhelming. The dimming function allows you to adjust the brightness according to your preferences, making it customizable for any emotion or setting.

These LED lights come in non waterproof IP20 and waterproof IP65/IP68 rating options, making them perfect for outdoor use as well. You can easily install them in any outdoor space without worrying about weather or water damage. The 10mm width makes it easy to install in small spaces, providing you with more placement options.

The adhesive LED string light is equipped with adhesive to make it easy to install. You can easily adjust the position as needed to make it suitable for temporary activities or permanent installation.

Overall, our adhesive LED string lights are the perfect lighting solution for any space. Flexible LED lights provide you with endless possibilities for customization and multifunctionality. Color changing light strips add fun and unique elements to any room or activity.

Durable PCB materials and support dimming function make it a practical and reliable choice for all your lighting needs, whether it's IP20, IP65, or IP68 ratings.

Applications:

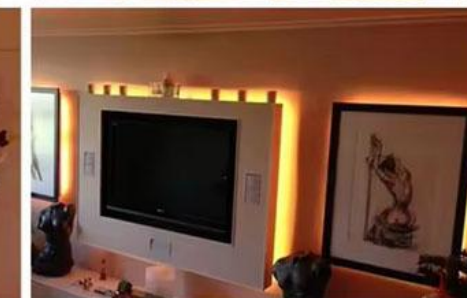

Need to add some ambiance to a party or event? These Color-Changing Light Strips are the perfect addition to create a fun and festive atmosphere. With the ability to change colors and patterns, you can customize the lighting to fit any theme or mood.

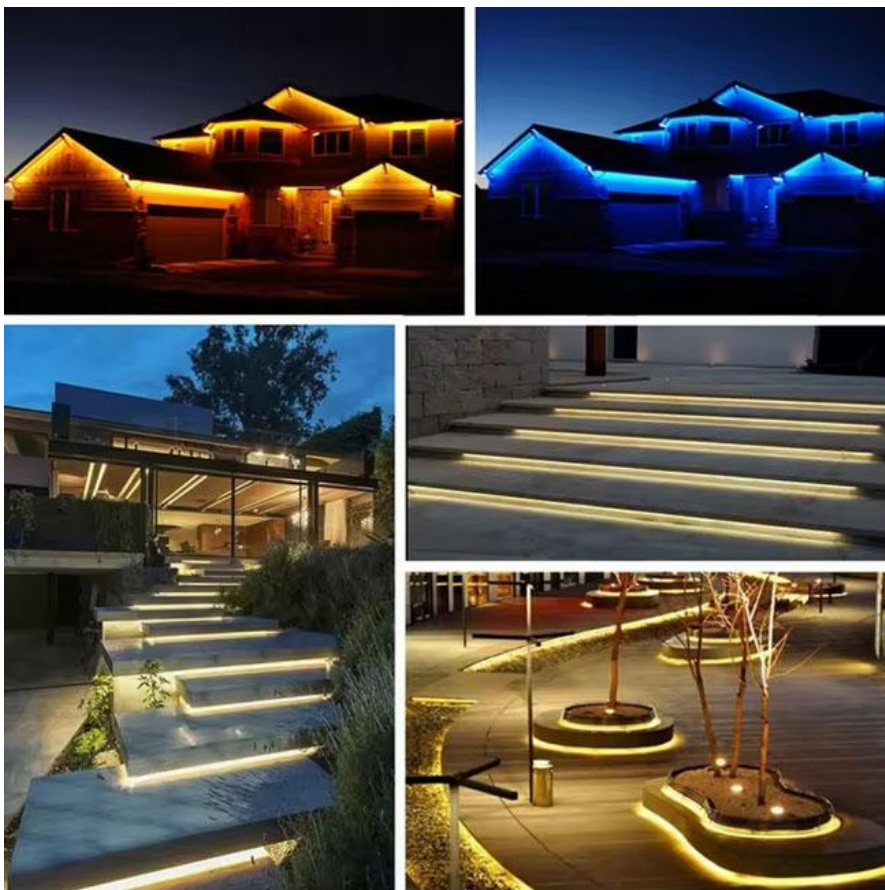

Looking for a unique way to enhance your home decor? These LED strip lights are a great option. With their slim 10mm width, they can be easily hidden or incorporated into any design. They can be used to highlight artwork, under cabinets or shelves, or as accent lighting for a cozy and inviting feel.

For those who work from home or need good lighting for studying, these LED strip lights can provide a comfortable and bright workspace. With their long lifespan of 50,000 hours, you can be sure that they will last you a long time. Plus, with their low power input of DC12V, they won't put a dent in your electricity bill.

These Color-Changing Light Strips are also great for retail or commercial spaces. They can be used to highlight products or displays, or even as decorative lighting in hotels or restaurants. With their CE certification, you can be sure that they are of high quality and meet safety standards.

Ordering these LED strip lights is easy with a delivery time of 3-8 days and payment terms of TT. With a supply ability of 500000pcs/month, you can rest assured that your order will be fulfilled promptly. So why wait? Order your Linkop LCSD- Color-Changing Light Strips today and add a new dimension of color and light to your life!
