Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE/FCC/ROHS
- Model Number: LC-BJDJ-001A
- Minimum Order Quantity: 10pcs
- Price: \$9.8/Pcs
- Packaging Details: color box
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 3000000pcs/ month

Product Specification

- Warranty: 1 Years
- Charging Time: 5-6 Hours
- Switching Mode: Intelligent Light Control Switch
- Power Supply: Solar
- Led Light: High Brightness Bridgelux
- Housing Material: ABS
- Work Temperature: -30°C~+60°C
- Operating Voltage: AC90-295V, 50-60Hz
- Highlight: Outdoor Led Garden Light,
Human Sensing Solar Street Light,
Led Solar Street Light

Product Description

Outdoor Led High Light Garden Light Human Sensing Solar Street Light

Product Description:

One of the standout features of this product is its installation mode. Unlike traditional lighting solutions that require complex wiring and installation processes, the LED Freeway Pole is incredibly easy to set up. It's designed to be installed without any wiring, making it a hassle-free option for anyone looking to upgrade their outdoor lighting.

Another key feature of the LED Freeway Pole is its housing material. Made from high-quality ABS, this product is built to withstand even the harshest weather conditions. It's designed to be rust-resistant, so you can be sure that it will last for years to come, even in areas with high levels of moisture or saltwater exposure.

The LED Freeway Pole is powered by solar energy, making it an eco-friendly and cost-effective choice for anyone looking to reduce their environmental impact. It's equipped with a high-quality solar panel that can absorb sunlight during the day and convert it into energy to power the LED lights at night. This means that you won't have to worry about electricity costs or the hassle of connecting your lights to a power source.

The LED lights used in the Freeway Pole are high-brightness Bridgelux LEDs, which are known for their energy efficiency and long lifespan. These LEDs are designed to provide bright and consistent lighting, even in the darkest of conditions. They're also highly durable, which means you won't have to worry about replacing them anytime soon.

The LED Freeway Pole is equipped with an intelligent light control switch, which allows it to switch on and off automatically based on ambient light levels. This means that you won't have to manually turn the lights on or off, saving you time and effort. The switch also helps to conserve energy, as the lights will only turn on when they're needed.

Overall, the LED Freeway Pole is an excellent choice for anyone looking for a high-quality and efficient LED street lighting solution.

Whether you're looking to illuminate a highway, expressway, or street, this product is designed to provide reliable and consistent lighting, no matter what the conditions are like outside. So why wait? Upgrade your outdoor lighting today with the LED Freeway Pole!

Features:

Product Name: LED Street Lamp

Product Name: Smart Solar Street Lamp

Charging Mode: Solar Energy

LED Lifespan: >50000H

Certificates: CE, EMC, LVD, RoHS, FCC

Warranty: 1 Year

Technical Parameters:

Technical Parameter	Description
Application Scenario	Streets, Factories, Yards, Roads, Schools, Gardens And So On
Product List	Lights, Solar Panels, Brackets, Screws, Remote Control
Operating Voltage	AC90-295V, 50-60Hz
Switching Mode	Intelligent Light Control Switch
Certificates	CE, EMC, LVD, RoHS, FCC
Warranty	1 Year
Power Supply	Solar
Housing Material	ABS
LED Light	High Brightness Bridgelux
Charging Time	5-6 Hours

Applications:

With its high brightness Bridgelux LED lights, the LC-BJDJ-001A LED Road Lamp provides clear and bright illumination, ensuring that roadways and parking lots are well-lit and easy to navigate, even in the dark. The LED roadway fixtures also feature a lithium battery with a 3.2V capacity, making them highly efficient and long-lasting.

Moreover, the LC-BJDJ-001A LED street lights are easy to install, thanks to their no-wiring installation mode. This installation mode

means that the LED roadway fixtures can be easily mounted on poles or walls without the need for any complicated wiring. The waterproof class of IP67 ensures that the LED street lights are protected against harsh weather conditions. This makes them suitable for use in a variety of outdoor settings, including coastal areas, where the fixtures may be exposed to saltwater and high humidity levels. The LC-BJDJ-001A LED street lights are also certified by CE/FCC/ROHS, ensuring that they are safe and reliable for use. With a minimum order quantity of just 10pcs, the LED street lights are perfect for both small and large-scale lighting projects. The packaging details of color box make the LC-BJDJ-001A LED street lights easy to transport, while the quick delivery time of 3-8 days ensures that they can be delivered to customers in a timely manner. The payment terms of TT and the supply ability of 3000000pcs/month make purchasing the LED street lights hassle-free for customers. Finally, the LC-BJDJ-001A LED street lights come with a 1-year warranty, giving customers peace of mind when it comes to the durability and longevity of the product.
