## Product Description

### 24v Addressable Single Color Water Light With Led Self-Adhesive 2835 Linear Light 120 Leds/M 8mm

#### Product Description:

LED light strips have low power consumption and an input voltage of 24V DC. Each meter consists of 120 2835 high-brightness lamp beads and 8 ICs. This makes them an energy-efficient and affordable lighting option that can help you save on your electricity bills. You can choose from three different IP ratings, including IP20, IP65, and IP67, depending on your needs and usage environment. Addressable single-color LED light strips are also customizable, allowing you to tailor the glow color to your preferences. Single-color light strips can be used with a remote control that allows you to change the brightness, mode, and speed of the light. You can choose the light effect you want from a variety of modes.

These adhesive LED light strips are easy to install and can be cut to any size or shape. The LED light strips come with a strong adhesive backing that allows you to stick them to any surface, including walls, ceilings, and furniture. You can even use them outdoors as they are waterproof and can withstand rain and moisture.

Whether you want to create a warm and welcoming atmosphere in your living room, add a touch of color to your bedroom, or highlight your garden or terrace, including birthday and wedding venues, addressable single-color LED light strips are the perfect solution. With low power consumption, easy installation, and customizable features, these light strips are a great choice for anyone looking for a modern and stylish lighting option.

#### Features:

Product Name: LED Strip Lights

Lifespan: 50,000 Hours

Leds: 120pcs

Product detail: 20m/roll

Input Voltage: DC 24

Lamp Body Material: PCB

Features:

Addressable dimming light strip

2835 single color LED light strip

Flexible water flow light strip

#### Technical Parameters:

Emitting Color	Single color
Lamp Body Material	PCB
Color	White light/Warm white/Neutral light/Red/Green/Blue
Product Detail	2835 addressable light strip
Power Input	DC24V
Lifetime	50,000 Hours
Input Voltage	DC 24
Lifespan	50,000 Hours
Width	8mm
Lamp bead model	2835

#### Applications:

These flexible LED lights are perfect for creating a unique atmosphere in a variety of environments. They can be used in bedrooms, living rooms, kitchens, birthdays or weddings. It's a great choice.

These LED light strips are also smart, equipped with a variety of features such as addressable, music, timing, water flow, chasing and dimming multiple effects. This makes them perfect for use in home theaters or to create a party atmosphere. The 120 leds/m LED quantity ensures that the lights are bright and vibrant, while the 8mm width of the light strip can be easily installed in a variety of locations.

Linkop LED light strips are CE certified, ensuring that they meet high quality standards. The minimum order quantity is 10 meters, which are packaged in one bag. They have a monthly supply capacity of 500,000 meters and can be delivered within 3-8 days. The payment terms are TT, so it is very convenient to buy these lights. Overall, these LED light strips are a great choice for anyone who wants to add ambiance and personality to their home or outdoor space. With their versatility and smart features, they can be used in a variety of environments and for a variety of occasions.
