Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LCSD-HZY-16703-IP68
- Minimum Order Quantity: 10 meter
- Price: $3.1/meter
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 500000meter/ month

## Product Specification

- Size: 10mm
- Power Input: DC24V
- Leds: 60pcs/m
- Chip Quantity: 10 Pcs/m
- Product Detail: Add Light Strip
- Lamp Body Material: PCB
- Support Dimmer: Yes
- Width: 10mm
- Highlight: **Flexible Pcb Board Led Strip**,
  Dc24v Addressable Led Strip,
  Silicone Waterproof Led Strip

Luminous color: RGB
Voltage: 24V
Model: 5050-16703 ic-4pin
Waterproof level: IP68
Number of lamp beads: 60 leds/m

60leds/M Dc24v Addressable Rgb Color Changing Led Strip With Flexible Pcb Board Silicone Waterproof Ip68

Product Description:

These color-changing light strips feature a flexible design that allows you to bend and shape them to your needs. Whether you want to add them to your TV, under a cabinet, or around your headboard, set up in a fish tank, in a pool, outdoors, the possibilities are endless. These flexible LED lights are also perfect for parties and events where you want to create a fun and vibrant atmosphere.

The LED light strips are 10mm wide and are made from high-quality silicone and PCB materials to ensure durability and longevity. The sticky backing makes installation a breeze, without the need for any additional tools or hardware. Simply peel and stick the lights onto any surface, and you're ready to go.

The color of light emitted by these LED light strips is RGB, which means you can create a variety of color combinations and patterns. The RGB IC technology allows you to control the color of each light from a remote control, giving you the ability to change the color, brightness level, and even set an auto-off timer.

These sticky LED rope lights are also energy-efficient, consuming only a fraction of the energy compared to traditional lighting options. This means you can enjoy the benefits of bright, colorful lights without having to worry about your electricity bill.

All in all, our adhesive LED light strips are the perfect choice if you're looking for a versatile and easy-to-install lighting solution. With their flexible design, color-changing capabilities, and energy efficiency, these color-changing light strips will never let you down. They're perfect for any occasion and are sure to enhance the look and feel of your space.

Features:

Product Name: Addressable silicone light strip
Lamp Body Material: PCB
Product detail: Light Strip
Emitting Color: RGB
Led Quantity: 60 LEDs/m
Power Input: DC24V
Flexible LED Lights
Addressable RGB Light Strips
Solid Silicone Waterproof Rope Lights
Light strips made of this material can last for 5 years without turning yellow or breaking, proving its reliability.

Technical Parameters:

Product Detail	Adhesive LED Rope Lights
Width	10mm
Lifetime	50,000 Hours
Lamp Body Material	PCB
Leds	60pcs
Ip Grade	IP68
Power Input	DC12V
Emitting Color	RGB
Support Dimmer	Yes
Lifespan	50,000 Hours

Applications:

These LED strips have a special feature: they use 16703 chips, so when one of the individual lights fails, the others will not be affected and can continue to work. This is the magic of it, unlike other strips, where if one light fails, the whole strip will fail. It also has addressable, music, timing and smart functions, which are perfect for creating custom lighting scenes for any occasion. Whether you are hosting a party, relaxing at home or working in the office, these LED strips can be customized to suit your needs.

These LED light strips are produced in Guangdong, China, and are certified by CE, ensuring that they meet high-quality standards. With a minimum order quantity of 10 meters, these LED strip lights are perfect for both personal and commercial use. The packaging details include a bag, and the delivery time is between 3-8 days. The payment terms are TT, and the supply ability is 500000 meters per month.

These LED light strips are 10mm in size and have a power input of DC24V, with an input voltage of DC 24. This means that they are energy-efficient and can help you save on your electricity bills.

Overall, whether you're looking for an easy-to-install lighting solution for your home or business, or want to create a custom lighting scene for a special event, Linkop LCSD-HZY-16703-IP68 LED Strip Lights are a great choice. With their versatile and innovative features, these LED rope lights are sure to enhance the ambiance of any space.
