

## 24v Silicone Colorful Light Strip Ip68 Addressable Self-Adhesive Linear Light Strip 60 Leds/M

Our Product Introduction

for more products please visit us on [ledslightstrip.com](http://ledslightstrip.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Linkop
- Certification: CE
- Model Number: LCSD-HZY-2811IC-3pin
- Minimum Order Quantity: 10 meter
- Price: \$2.35/meter
- Packaging Details: bag
- Delivery Time: 3-8 days
- Payment Terms: TT
- Supply Ability: 500000meter/ month

### Product Specification

- Input Voltage: DC 24
- Size: 10mm
- Product Characteristics: Addressable Solid Silicone
- Led Quantity: 60 LEDs/m
- Support Dimmer: Yes
- Chips Qty: 20 Pcs/m
- Color: RGB IC
- Lamp Body Material: PCB
- Highlight: Self-Adhesive Silicone Colorful Light Strip, Ip68 Silicone Colorful Light Strip

## Product Description

### 24v Silicone Colorful Light Strip Ip68 Addressable Self-Adhesive Linear Light Strip 60 Leds/M

#### Product Description:

The LED light strip is made of high-quality materials, and the body of the light is made of PCB material. This material ensures that the light fixture is durable. The size of the LED light strip is 10mm, which can be easily installed in any location. The LED light strip is equipped with 60 LED lamp beads and 20 2811 chips per meter, ensuring that you get the right amount of light for your needs. The sticky LED light strip is designed with a series of features that make it stand out from the competition. These features include addressable, music, timing, and smart functions. With the addressable function, you can control each individual LED bulb, allowing you to create a unique lighting pattern. The music function allows the lights to sync with the music, creating a unique and vibrant lighting experience. With the timing function, you can set the lights to turn on and off at specific times, making it easy to control the lights even when you are not present. The smart function allows you to control the lights from anywhere in the world using your smartphone. The LED light strip is also designed to be dimmable, allowing you to adjust the light brightness according to your needs. This feature is perfect for those who want to create a more relaxing and comfortable atmosphere. The LED light strip is also flexible and can be easily installed in any location. The adhesive backing allows the LED strips to be easily mounted in any position, ensuring you get the perfect lighting experience every time.

All in all, the Adhesive LED Strips are the perfect solution for those looking for flexible, dimmable LED strips. With their high-quality materials, smart features and a host of features, these LED strips are perfect for use in a variety of environments. Whether you want to create a relaxing, cozy atmosphere or an energizing vibe, these LED strips are sure to satisfy your needs.

#### Features:

Product Name: Silicone light strip

Power Input: DC24V

Lamp Body Material: PCB

Led Quantity: 60 LEDs/m

Ip Grade: IP68

Lifespan: 50,000 Hours

Features:

Addressable rgb light strip

Silicone soft light strip

IP68 Waterproof Magic color

#### Technical Parameters:

Product characteristics	Addressable, Music, Timing, Smart
Lifetime	50,000 Hours
Input Voltage	DC 24V
Ip Grade	IP68
Size	10mm
Width	10mm
Lifespan	50,000 Hours
Led Quantity	60 LEDs/m
Color	RGB IC
Power Input	DC24V

#### Applications:

These LED strips are easy to install and come in a variety of lengths for a variety of applications. They can be used to highlight architectural details, create accent lighting, or provide general lighting. The LED strips are made from high-quality PCB materials, ensuring durability and longevity.

Whether you want to create a relaxing atmosphere at home or a more active vibe in the office, Linkop's LCSD-HZY-2811 IC-3pin color-changing light strips are the perfect solution. They are easy to install and come in a variety of sizes, so you can choose the right length for your needs.

Made from flame-retardant and waterproof silicone material, these LED strips are perfect for use in water or harsh environments. For example, pools, outdoor areas, and more. They can be used to create visually appealing displays or highlight specific products. With their RGB IC color-changing light strips, you can create vibrant and eye-catching displays that are sure to attract attention.

Linkop's LCSD-HZY-2811 IC-3pin color-changing light strips are CE certified, ensuring the highest quality standards. With a minimum order quantity of 10 meters, they are perfect for both small and large projects. The packaging details are simple and easy to carry, packed in bags.

With a delivery time of 3-8 days, you can have your LED strip lights up and running in no time. With payment terms of TT and a monthly supply capacity of 500000 meters, you can be sure you always have the light you need when you need it.

So whether you want to create a relaxing environment at home or an eye-catching display in your store, Linkop's LCSD-HZY-2811 IC-3pin color changing light strips are the perfect solution. Easy to install, durable and versatile, these LED strip lights are sure to impress.
