Product Description

Addressable Rgb Flexible Self-Adhesive Light Strip 2811 Fantasy Rope Light Ip65 Waterproof Linear Light 10mm

Product Description:

These Color-Changing Light Strips come with 60pcs/m LED Qty, making them an excellent choice to add a touch of elegance to any room. Whether you want to light up your bedroom, living room, or kitchen, these LED strip lights are perfect for every purpose. They are designed to provide optimal brightness while consuming minimal energy, making them cost-effective and eco-friendly.

Not only are they energy-efficient, but they are also durable. With a lifespan of 50,000 hours, these Color-Changing Light Strips can be used for years without needing to be replaced. You can use them to create an inviting atmosphere in your home or office, and they are perfect for parties, weddings, and other events.

The dimming feature of these LED Strip Lights allows you to control the brightness of the lights according to your preference. You can adjust the brightness level to create a cozy and relaxing ambiance or brighten up space for a party. The dimming feature also helps you save energy and prolong the lifespan of the lights.

The LED Strip Lights come with 60pcs of LEDs, which means that they can illuminate a large space. You can use them to highlight your artwork, accentuate your furniture, or create a stunning background for your photos and videos. They are also perfect for creating a unique and colorful lighting effect in your home or office.

These Color-Changing Light Strips are easy to install and come with a self-adhesive tape that allows you to attach them to any surface. You can cut them to fit the length of your space, and they are flexible enough to bend around corners and curves.

In conclusion, if you are looking for a cost-effective, eco-friendly, and versatile lighting solution, these Color-Changing Light Strips are an excellent choice. With their dimming feature, long lifespan, and easy installation, they are perfect for any room in your home or office. Get yours today and transform your space into a cozy and vibrant oasis.

Technical Parameters:

Product Name:	Flexible LED Lights
Product Type:	RGB LED Ribbon Lights
Color:	RGB IC
Support Dimmer:	Yes
Input Voltage:	DC 12V
Emitting Color:	RGB
Width:	10mm
Size:	10mm
IP Grade:	IP65
Power Input:	DC 12V
Product Characteristics:	Addressable,Music, Timing, Smart
Lamp Body Material:	PCB
Description:	Addressable LED Strip Light

Applications:

Chip upgrade

Customized specifications

Safe low voltage

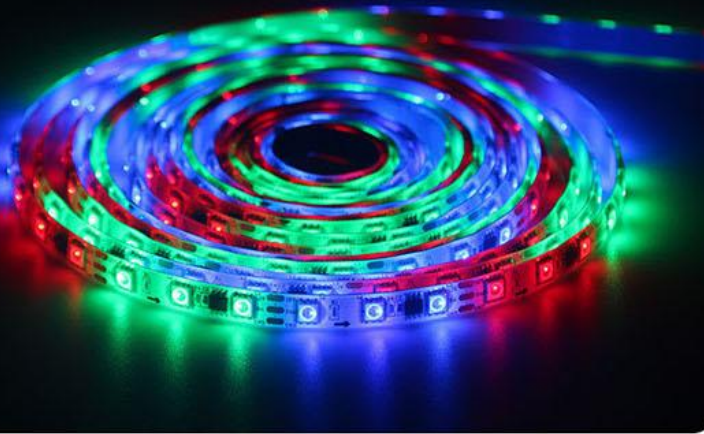

Flexible sheet

Easy to cut

Widely used

Safety low voltage

DC12V is lower than the safety voltage of human body, and can be touched directly by hand without electric shock or leakage.
