Product Description

Addressable 12v5050rgb Fantasy Color 2811led Waterproof Ktv Bar Water Light Strip

Product Description:

Our LED Strip Lights are designed to be easy to install and are perfect for use in a variety of settings such as homes, offices, and businesses. The input voltage of DC 12 ensures that the lights are energy-efficient and cost-effective. The 10mm size of the light strips makes them easy to handle and fit in any location.

The RGB LED Ribbon Lights can be easily controlled with a remote, allowing you to customize the lighting to your exact preferences. The lights can also be dimmed, providing the perfect ambiance for any situation. Whether you are looking to create a relaxing environment or a lively party atmosphere, these LED Strip Lights have got you covered.

Our LED Strip Lights are perfect for use in a variety of applications such as under-cabinet lighting, cove lighting, and accent lighting. They are also ideal for use in media rooms, home theaters, and bedrooms. The color-changing feature makes them perfect for seasonal events such as Christmas, Halloween, and parties.

In conclusion, our Dimmable LED Strip Lighting is the perfect addition to any space. The high-quality PCB material, RGB IC Color technology, and easy-to-use remote control make these Color-Changing Light Strips a must-have for anyone looking to create a unique and colorful atmosphere. So why wait? Order your RGB LED Ribbon Lights today and start enjoying the perfect lighting for any occasion.

Applications:

One of the most popular applications of these Flexible LED Lights is in home lighting. They can be used to add mood lighting to bedrooms, living rooms, and kitchens. With the ability to change the color and brightness, they can create a warm and inviting atmosphere for any occasion, from romantic dinners to family gatherings.

These LED Strip Lights are also widely used in commercial settings, such as restaurants, bars, and retail stores. They can be used to highlight products or create a unique and eye-catching visual display. With the option of choosing IP20/IP65/IP67 grade, they are suitable for both indoor and outdoor use, making them perfect for outdoor events, festivals, and concerts.

Another application of these LED Strip Lights is in automotive lighting. With their flexible and adhesive design, they can be easily installed in cars, motorcycles, and boats to create a unique and personalized look. They can also be used as accent lighting for car interiors, creating a cool and futuristic vibe.

Linkop's LCSD-HZY- LED Strip Lights come with CE certification and are available for a minimum order quantity of 10 meters. They are packaged in a bag and have a delivery time of 3-8 days. Payment terms are TT, and the supply ability is 500000 meters per month. With 60pcs LEDs and an input voltage of DC 12, these LED Strip Lights are energy-efficient and can last for up to 50,000 hours.
