Product Description

Flexible Led Christmas Lights 5vusb Addressable Firework Lights With Rgb Ic For Indoor Decoration

Product Description:

The LED strips feature a 5050 lamp type, which is known for its high brightness and energy saving. The body material is made of PCB, a durable material that is heat and moisture resistant. The input voltage of these lights is DC 5V, which is a safe low-voltage choice for the home.

These dimmable LED strips are perfect for those who want to control the brightness and mood of the lighting. By dimming the lights, you can create the perfect atmosphere for any occasion. These lights also have an IP20 rating, which means they are dustproof and protected against solid objects larger than 12 mm, suitable for indoor use.

These LED strips are easy to install, and they exist for all kinds of festivals and indoor atmospheres, whether it is to add indoor atmosphere at ordinary times, or birthday parties, Christmas, weddings. This addressable fantasy fireworks light can create an extraordinary atmosphere for you and give you unexpected effects.

Overall, the addressable LED fireworks lights are a great addition to any home decoration or festive event. With high-quality lamp types and durable materials, these color-changing light strips are a long-term investment that can add personality and atmosphere to any space. So whether you want to create a warm and cozy atmosphere or a bright and festive vibe, these dimmable LED firework lights are the perfect choice.
