Product Description

Flexible Design And Cuttable Feature Led Neon Light With Ip67 Grade Shining

Product Description:

Our LED neon signs are made with LED neon tubes, which are safer and more durable than traditional glass neon signs. LED neon tubes are made with neon gas, which is a more environmentally friendly option compared to the argon gas used in traditional glass neon signs. LED neon tubes are also energy-efficient, which means it consumes less electricity than traditional glass neon signs.

LED neon signs are perfect for creating an eye-catching sign for your business, restaurant, or home. You can create a custom design with our LED neon signs to make your space stand out. Our LED neon signs are available in 12V and 24V, which means you can choose from a wide range of colors to create a vibrant and colorful sign.

LED neon signs are easy to install and come with all the necessary accessories. You can mount it on any surface with the included clips and screws. LED neon signs are also waterproof, which means you can use it both indoors and outdoors.

In conclusion, our LED neon sign is a perfect alternative to traditional glass neon signs. It is made of LED neon flexible material, which is safer and more durable than traditional glass neon signs. The LED neon sign is available in 10*10/12*12 and other specifications, multiple colors and two input voltages, 12V and 24V. It is also dimmable, which means you can adjust the brightness as needed. Our LED neon sign is perfect for creating an eye-catching sign for your business, restaurant or home. It is easy to install and comes with all the necessary accessories. The LED neon sign is also waterproof, which means you can use it both indoors and outdoors. Choose our LED neon sign to create a vibrant and colorful sign that will make your space stand out!
