Product Description

360° Luminescence Led Single Color Neon Light The Ultimate Lighting Solution For Your Space

Product Description:

This product is perfect for use during festivals and events as it can be used to create unique and eye-catching light displays. With its monochromatic design, it's easy to create a cohesive look that goes well with the theme of your event. Additionally, this product is versatile and can be used for landscaping, making it a great choice for those looking to add some decorative lighting to their garden or outdoor space.

The Neon LED Light is designed to be highly flexible, meaning it can be easily bent and shaped to suit your needs. This feature also makes it ideal for use in DIY projects as you can easily cut and shape the product to suit your specific requirements. This product is perfect for anyone looking to add a unique touch to their home or office as it can be used to create a variety of custom lighting designs. One of the best features of the Neon LED Light is its circular 360° light-emitting surface, which is perfect for your every need. You can also choose from a wide range of colors, making it easy to create a lighting display that's exactly what you want. This product is also extremely energy-efficient, meaning it won't put a big strain on your electricity bill, making it a great choice for those looking to save on lighting costs.

All in all, the Neon LED Light is a great choice for anyone looking for a high-quality and versatile lighting product. Its flexible design, single color options, and high-quality silicone material make it ideal for use in a variety of applications, including festivals, landscaping, commercial spaces, and homes. Additionally, its 220V voltage and energy-efficient design make it a great choice for those looking to create a unique and eye-catching lighting display without spending a fortune.

Features:

Product Name: LED Neon Light

Luminous color: Single Color

Led Type: LED Neon Light

Power: 12W/m

Usage: Festival, Landscaping, Commercial, Home

Input voltage: 220V

Our LED neon sign is perfect for adding a splash of color to any space. With its single-color glow display and 360° circular glowing face, it is sure to catch the eye. This flexible neon sign is versatile and can be used for festivals, landscaping, commercial, and home purposes. The LED neon sign is powered by a 220V input voltage and is easy to install and use. Trust our neon LED lights to illuminate any environment.
