## Product Description

### 220v High Light Led Strip Lights 100m/Roll Product Characteristics

#### Product Description:

The LED strip lights come in a lamp type of 2835, which allows for a bright and efficient light source. The power input for these lights is DC220V, making them easy to install and use. The lamp body material is made of PCB, which ensures durability and longevity for your lighting needs.

One of the best features of these LED strip lights is their flexibility. You can bend, cut, and shape these lights to fit any space in your home. This makes them perfect for adding accent lighting to your kitchen cabinets, creating a unique headboard in your bedroom, or even adding some light to your car interior.

These lights are IP68 waterproof, which means they are safe to use and do not pose any electrical hazards. In addition, LED technology ensures that these lights are energy-efficient and can save you money on your electricity bills.

In conclusion, if you're looking for a versatile and efficient lighting solution for your home, our Flexible LED Lights are the perfect choice. With their six different emitting colors, 2835 lamp type, and flexible design, these lights can be used in a variety of ways to enhance your home decor. So why wait? Order your set of Flexible LED Lights today and start transforming your living space!

Ip Grade: IP68

Input Voltage: DC 220V

Size: 100m/roll

Lifespan: 50,000 Hours

Product characteristics: High Light

Features:

Flexible LED Lights

Single color light strip

#### Technical Parameters:

Lamp Body Material	PCB
IP Grade	IP68
Color	Single Color
Power Input	DC220V
Product characteristics	High Light
Size	100m/roll
Input Voltage	DC 220V
Application Scenario	Indoor/ Outdoor/ Hotel/ Shopping Mall
Lifespan	50,000 Hours
Product detail	Light Strip

#### Applications:

These LED Strip Lights are made from high-quality PCB material, ensuring durability and longevity. They are certified with CE, and their minimum order quantity is 100 meters. The packaging details are in a bag, and the delivery time ranges from 3-8 days. Payment terms are TT, and the supply ability is 500,000 meters per month. Additionally, these LED Strip Lights support dimmer functions, allowing you to adjust the brightness to your liking.

One of the most popular application scenarios for these LED Strip Lights is in hotels and shopping malls. They can be used to create ambient lighting that enhances the overall atmosphere of the space. In addition, these LED Strip Lights are perfect for outdoor use, as they are waterproof and can withstand harsh weather conditions.

Another great use for these LED Strip Lights is in residential settings. They can be used to add accent lighting to various areas of your home, such as under cabinets, behind TVs, or in bedrooms. The flexibility of these LED Strip Lights makes them easy to install in any location.

In conclusion, Linkop's LCSD-HZY-2835-120D-8mm LED Strip Lights are a great investment for anyone looking for versatile and high-

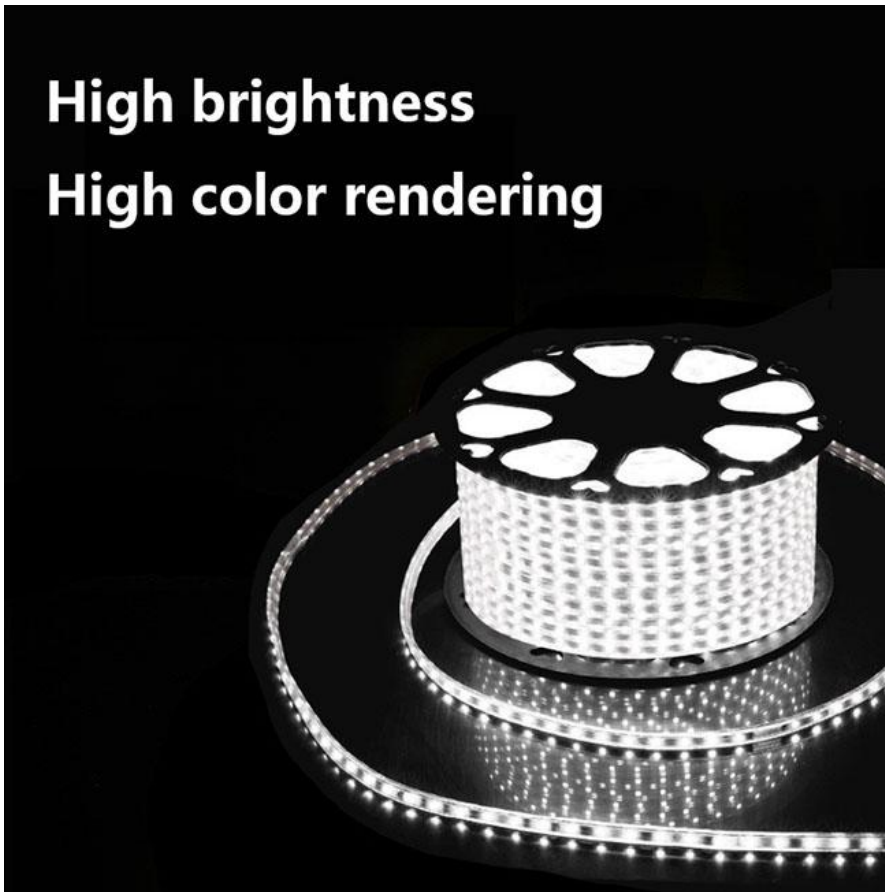

quality lighting solutions. Their flexible design, range of colors, and dimmer functions make them perfect for a variety of occasions and scenarios. Whether you are looking to enhance the ambiance of your home or create an inviting atmosphere in a commercial setting, these LED Strip Lights are the perfect choice.
